## FEW POINTERS FOR WINNER

Timothy Pells, left, who won the Wentworth House of Music trophy for distinction in classic guitar at the Okanagan Valley Music Festival which began today in the city, talks business with adjudicator,

Ted Komar, during a break in the program at Centennial Hall. Mr. Pells performed during morning sessions of the festival today. Mr. Komar is a well-known musical director of many CBC productions

and has directed such well-known personalities as Juliet, Cab Calloway and Lena Horne. He has adjudicated accordion and guitar classes across the country including the Canadian Accordion championships

and the Canadian National Exhibition Festival at Toronto. The festival continues until Saturday at the Kelowna Community Theatre, Centennial Hall and the House of Wentworth. (Courier Photo)

## 66-HOUR VOYAGE

# Casper Heads For Home Tonight

HOUSTON (CP) — The Apollo 16 spacecraft, heavily laden with a record haul of 245 pounds of lunar rocks and soil, swung around the moon today as three tired but happy astronauts set their sights for earth.

Mission commander John Young, his fellow moon explorer Charles Duke and command spacecraft pilot Ken Mattingly will jettison the battered lunar lander Orion and fire up the main engine of their mother ship Casper at 9:16 p.m. EST to leave lunar orbit and begin the 66-hour, 240,000-mile voyage to earth.

The cruise back to earth in Casper, man's weightiest cargo spaceship to ply the lunar route will end Thursday with splashdown in the Pacific.

The mission, which began eight days ago at Cape Kennedy, set records for lunar exploration. Young and Duke bagged more rock specimens than any scientist dared hope for, travelled farther (16.9 miles) than any previous expedition, and spent slightly more

than 20 hours driving and laboring among the craters, crags and boulders of the Descartes highlands.

All told, the two men were on the moon for a total of 71 hours two minutes compared with the 68 hours 55 minutes of last summer's Apollo 15 mission of David Scott and James Irwin.

### MATTINGLY BUSY

During the three-day exploration, Mattingly, alone in Casper, circled 70 miles above his moon-bound companions, captured an unrivaled film record of the lunar surface and carried out scientific measurements that will enable future moon travellers to pinpoint good landing sites.

For the second time since man first walked on the moon nearly three years ago, millions of people on earth Sunday night saw the sudden drama of blast-off from the lunar crust as the upper stage of Orion shot off into the blackness of space to glide and link up with the command vessel.

The crucial docking of the two

spacecraft as they swung in orbit was only achieved after heart-stopping minutes of tension when Mission Control in Houston announced "something might have come loose from the skin at the back of the vehicle" when it leaped off the moon.

Mattingly in Casper closed up to inspect Young and Duke's fragile vehicle and reported it was "pretty badly chewed up." A couple of the wafer-thin aluminum panels had apparently been ripped off by the force of the blast-off from the moon.

### JOIN SMOOTHLY

But the two crews went ahead calmly with their docking manoeuvre and the upper stage of Orion slid its nose in smoothly to join the command ship.

Finally, the two crawled into Casper for a reunion with Mattingly, hauled in their precious rock and soil samples, battered down the hatches and slept. The rest of the equipment

from Orion was to be transferred today. Then the truncated moonship will be set adrift before plunging down to crash on the moon.

Because of lingering doubts about Casper's reserve guidance system, which malfunctioned last Thursday and nearly forced cancellation of the moon landing, a planned 18-hour science and photographing period from the mother ship today has been cancelled.

Space agency engineers decided they would not risk firing the main rocket engine more than necessary even though the primary guidance system, which acts as an engine tiller, has checked out perfectly.

A serious fault in the engine, which will thrust the astronauts out of moon orbit and into a trajectory for earth tonight, would doom Casper's crew to almost certain death.

## APOLLO TIMETABLE

HOUSTON (AP) — The Apollo 16 schedule for today and Tuesday all times EST:

**TODAY**  
3:52 p.m.—The lunar lander Orion is jettisoned and Mission Control in Houston sets it on a course to smash into the moon.

4:54 p.m.—Astronaut Thomas Mattingly punches a button aboard the command module Casper to release a small satellite which will go into lunar orbit and transmit solar wind and lunar gravity scientific data to Houston long after Apollo 16 has departed.

9:16 p.m.—While behind the moon, Apollo 16's rocket engine is fired to break lunar

gravity's grasp and place Mattingly and moon explorers John Young and Charles Duke on a return course to earth.

**TUESDAY**  
4:41 p.m.—Casper's hatch is opened for the start of a space walk by Mattingly to retrieve film cassettes from high resolution and mapping cameras he operated while orbiting the moon as Young and Duke made their lunar surface explorations.

5:58 p.m.—Mattingly returns to the spacecraft and the hatch is closed.

**THURSDAY**  
2:44 p.m.—Splashdown in the South Pacific about 170 miles southeast off Christmas Island.

## RECORD OF SUCCESSES

HOUSTON (AP) — Apollo 16 starts home tonight with a record of successes and one failure.

Here's a capsule of the accomplishments in man's fifth moon landing:

Findings of rocks believed formed by the volcanoes which shaped the early moon. Most rocks gathered on moon, a total 245 pounds, or 30 pounds more than the first three moon landings combined and 76 pounds more than Apollo 15.

Longest total hours exploring the moon's surface, 20 hours 14 minutes, and longest single excursion—moon drive which lasted seven hours 23 minutes.

Fastest lunar speed on wheels, 11 miles an hour in the rover during the third excursion.

First landing in the moon's highlands. The other landings were in maria, or plains, areas of the moon.

Largest single rock collected on the moon. The astronauts are bringing home a small boulder weighing 10 pounds.

Largest lunar crater ever

## Defences Of Kontum City Smashed By North Vietnam

SAIGON (AP) — Spearheaded by tanks, a North Vietnamese division smashed the northern defences of Kontum today and drove South Vietnamese forces as far back as 15 miles. New air and sea battles erupted deep inside North Vietnam, in the Gulf of Tonkin and the Gulf of Siam.

The highlands defence line of An Canh and Dak To 25 miles north of Kontum crumbled under the Communist onslaught and a new line was being formed 10 miles north of the ultimate objective in the 26-day Vietnamese offensive.

Not since the opening day of the offensive, when thousands of North Vietnamese troops stormed across the demilitarized zone to attack Quang Tri province, have they made such advances.

A radio message was sent out to the scattered and badly battered South Vietnamese 22nd Infantry Division, which had its command post at Tan Uanh and a regimental command post at Dak To, to pull back to a new defensive line at Dinh on Highway 14. This is about 15 miles south of Tan Uanh and about 10 miles north of Kontum.

Other lesser bases and towns

more than 200 North Vietnamese troops were killed in fighting Sunday on the northern front below the demilitarized zone and at An Loc, 60 miles north of Saigon.

Three North Vietnamese tanks and three South Vietnamese armoured vehicles were reported destroyed in a tank battle west of Dong Hien, 10 miles below the DMZ, and two more were reported destroyed a half mile east of An Loc, the provincial capital under siege for three weeks.

In the air war, the U.S. command said about 10 surface-to-air missiles were fired at B-52 strategic bombers raiding North Vietnam. One of the bombers sustained what the command termed "minor battle damage."

## Explosion Rocks Toronto Hotel

TORONTO (CP) — Neighbors from blocks around were awakened early today by an explosion which rocked the Monarch House, a hotel in the city's west-central area. Police suspect the blast was caused by dynamite.

A spokesman for the Ontario fire marshal's office said a precise estimate of damage was not known although police rated damage at \$40,000.

No one was injured in the blast which shattered glass on the street, blew a hole in the six-inch concrete floor, raised the ceiling three inches and buckled a steel girder below the floor.

The hotel, owned by Paul Silver, had been undergoing alterations.

# Kelowna Driver Killed In Crash

## ONE DEAD, THREE INJURED FOLLOWING SHOOTING SPREE

NANAIMO (CP) — Sixteen-year-old Brenda Eileen Danluk of Nanaimo died in hospital Sunday after being shot twice in the head Saturday in a shooting spree at a restaurant in this Vancouver Island community.

She died 35 hours after a man entered the restaurant and emptied a .22-calibre pistol, injuring three other young persons.

Wayne Barber, 19, of Stouffville, Ont., and Rick Coulton, 24, of Nanaimo, were reported in fair condition in hospital in Victoria. Barber suffered a head wound and Coulton was struck in the shoulder.

Kathy Sweazy, 20, of Nanaimo was treated for a slight head wound and released Saturday.

Police said a man had been drinking in the restaurant earlier and returned about 2 a.m. with the pistol.

A 30-year-old man is in custody, but no charges have been laid.

## IRA Continues Sniping Attacks

BELFAST (CP) — Irish guerrillas wounded four persons in a wave of sniping attacks on security forces in Northern Ireland Sunday, and a band of masked gunmen abducted a shopkeeper and shot him in the leg after bombing his store.

Guerrillas of the Irish Republican Army in Londonderry raked a police truck with automatic weapon fire, hitting a policeman twice in the back and wounding a civilian passenger in the wrist.

A British soldier was shot in the leg later near a Roman Catholic district of Londonderry, and another soldier was shot in the arm while patrolling in Belfast.

Seven masked gunmen forced the storekeeper from his home in East Middletown during the night. They drove him to his store and set off a 30-pound gelatin bomb which badly damaged the shop. Then the gunmen shot the storekeeper in the leg and released him.

The wave of IRA assaults coincided with a burst of street fighting in Londonderry between Catholic and Protestant

## Passenger Escapes Injury Third Road Death Of Year

A single-car crash early Sunday at the corner of Todd and Saucier Roads, in South Kelowna, claimed the life of 23-year-old David Botfield, of Kelowna. A passenger, Carlo Borgnetta, 20, also of Kelowna, escaped injury.

Kelowna RCMP said today the vehicle Botfield was driving failed to negotiate a curve and rolled down a small embankment. Botfield, who was thrown from the vehicle, was pronounced dead on arrival at Kelowna General Hospital. The accident occurred shortly before 5 a.m.

An autopsy was held today and coroner Dr. Peter Hooge has ordered an inquiry into the mishap.

The fatality was the third recorded in traffic so far this year in the Kelowna area. Other accidental deaths have included six drownings and a young skier lost on Big White Mountain.

In another traffic mishap locally during the weekend, David

Richard Smid, of Kelowna, was taken to hospital early Saturday for treatment of minor injuries received when he apparently lost control of his motorcycle and struck a house belonging to Mrs. Wilma Kwiatkowski, on Mills Road, Rutland. Total damage was estimate at \$500.

### THREE OTHERS

There were at least three other accidental deaths in British Columbia during the weekend, all of them on the roads.

Stanley Hantz, 50, of Lytton, was killed Friday night when his car crossed the highway and sideswiped a truck on the Fraser Canyon highway, near Lytton.

Kenneth T. Yoshika, of Aldergrove, died in hospital in New Westminster Friday night after suffering head injuries in a single-car accident.

Keith Brooks, 16, of Surrey, was killed early Sunday when he was struck by a car as he stood outside a hall in Vancouver, where he had attended a wedding reception.

## Judge Moves To Speed Up Kidnapping Trial Of Rose

MONTREAL (CP) — Mr. Justice Eugene Marquis of Court of Queen's Bench clamped down on irrelevant declarations Monday in an effort to speed up the kidnapping trial of Jacques Rose, now in his 10th week.

Mr. Justice Marquis said all statements made outside the court which did not directly concern the trial would be liable to contempt of court citations.

Rose, 25, is charged with the abduction of Pierre Laporte in October, 1970. Mr. Laporte, then Quebec labor minister, was found strangled a week later.

The judge also said statements concerning events not related to the trial were not to be made in court and ruled that all motions henceforth must be submitted in writing.

He told the 12-man jury he would do everything in his power to end the trial with the "shortest delay."

The trial has been adjourned

several times since April 10 due to a Quebec public service strike which ended Saturday.

Defence lawyer Robert Lemieux told the judge Monday he would present a written bail request for his client Thursday.

Crown evidence Monday dealt mostly with events surrounding the arrest of Bernard Lord Nov. 6, 1970. Lord, serving a 20-year sentence for kidnapping Mr. Laporte, was arrested in a west-end Montreal apartment.

Roger Soucy, an officer with the Quebec Provincial Police, testified he had found a carton box in the apartment Nov. 10, 1970. Testimony revealed the box contained pieces of pink cloth.

Pierre Boulanger, a chemist with the Quebec justice department, said "similar cloth" was found in a house in St. Hubert, south of Montreal, where Mr. Laporte was held hostage for a week.

## East Coast Salmon Fishing Closed May 1 For 6 Years

OTTAWA (CP) — Closure of commercial salmon fishing in New Brunswick and the Port aux Basques region of Newfoundland was announced Monday by Fisheries Minister Jack Davis.

The closure, which the minister had forecast last week in an interview, begins May 1.

Mr. Davis said the decision will be reviewed annually but is expected to last six years at least—or one full cycle of a salmon's life.

"This drastic action has been forced upon us by a serious decline in the number of salmon returning to the Saint John, Miramichi and Restigouche rivers" in New Brunswick, Mr. Davis told the Commons. Fishing in the Port aux Basques

area also was dependent on runs destined for mainland streams and would be closed. It will be at least six years before stocks will be rebuilt to the point where "large-scale commercial operations can commence once more."

**WOULD SUPPLY ADVICE**  
Meanwhile, fishermen would serve on river management committees to advise on the duration of the closure and the manner in which the runs might best be restored.

"Compensation will be paid to commercial fishermen whose earnings are affected by these river closures," Mr. Davis said. "Payments will be negotiated on an individual basis and the formula . . . will be worked out in close consultation with the fishermen themselves."

Closures would not apply to salmon returning to streams in Newfoundland, Labrador and Nova Scotia.

The opposition reacted with anger to the announcement. Lloyd R. Crouse (PC—South Shore) said the ban is another example of the "ham-handed, half-hearted, slip shod" restrictions on Canadian fishermen in general.

The government had removed sick-mariners benefits and the salt subsidy but had restricted the fishing of haddock and swordfish and now salmon.

## Wall Street Nose Dives

NEW YORK (AP) — Stock market prices took a nose dive in today's active trading on the heels of news that the Price Commission would reduce prices at some of the nation's major corporations.

The noon Dow Jones average of 30 industrial stocks fell 6.62 to 857.18.

Declines held a 2 to 1 lead over advances on the New York Stock Exchange.

In the news background, the Price Commission said it would order price reductions and customer refunds totalling several hundred million dollars at some of the country's major corporations in the next few weeks.

Analysts noted that concern about developments in Vietnam, the report that inflation rose in the first quarter, and the continuing high rate of unemployment also pulled the market down.

## RCMP Seeking Three Escapees

VANCOUVER (CP) — A 11 RCMP detachments along Georgia Strait from Victoria to Alert Bay have been put on the alert for three escapees from the William Head correctional institute.

The three "described by police as armed and dangerous, escaped during the weekend and commandeered a 17-foot boat equipped with a 125-horsepower motor."

## NEWS IN A MINUTE

### Vietnam Talks Urged

UNITED NATIONS (Reuter)—UN Secretary-General Kurt Waldheim called again today for resumption of the Vietnam peace talks and proffered his own offices to help break the deadlock. At a surprise news conference he said he would continue to offer the UN's help to the parties to the conflict whether they liked it or not.

### Russia Maintains Stand

PARIS (AP)—The Soviet Ambassador Pyotr Abramov said today the Soviet Union will continue to provide "maximum aid to the heroic Vietnamese people in fighting American aggression."

### Buchanan To Defend Title

LONDON (AP)—Ken Buchanan of Scotland said today he will defend his world lightweight championship against Roberto Duran of Panama in New York's Madison Square Garden for a lightweight record purse of \$152,000.

## NAMES IN THE NEWS

## Brandt's Rule Is Threatened

Battered by two political setbacks, Chancellor Willy Brandt's rule was threatened today by conservatives who hinted they might let his treaties with Moscow and Warsaw go through while hitting Brandt on domestic issues. Brandt, leader of the Social Democrats, lost an important state election Sunday and the same night a government supporter in parliament defected to the Christian Democrats. This reduced Brandt's strength in the lower house, the Bundestag, to 249 Socialists and members of the small Free Democratic party, the minimum needed by his coalition government to stay in power.

Citing government statistics, a National Institute of Mental Health psychologist said today there is growing evidence that "almost no family" in the United States is entirely free of mental disorders. Dr. David Rosenblatt suggested that the incidence of mental disorders may figure prominently among causes of the country's social turbulence and disorders, including crime and racial unrest. Based on a 1967 institute survey, which Rosenblatt said contains the latest figures, he concluded possibly 60 million Americans are borderline schizophrenic or exhibit other deviant mental behavior in the schizophrenic category.

WILLY BRANDT  
... shaky ground

If your mail from Britain has been unusually late this year, blame it on the strike by longshoremen at United States east-coast ports that ended last Nov. 29. That's the word from Postmaster-General Jean-Pierre Cote, replying to critics in a letter published in The Globe and Mail. The longshoremen's strike in October and November last year diverted shipping to Canadian east-coast ports, Mr.

Cote said. "Although the U.S. strike ended on Nov. 29, 1971, the Canadian ports have only recently recovered fully from the effects of the heavy congestion and the subsequent Christmas rush period," he said.

Warning of possible radiation overexposure, the U.S. government disclosed Sunday it has asked states to halt the use of mobile x-ray screening for tuberculosis which now is "almost non-existent in many regions of the country." "The use of mobile equipment, which requires relatively higher levels of x-ray exposure than fixed equipment, simply cannot be justified," said Dr. Merlin K. DuVal, assistant secretary of health and scientific affairs in the health department.

John Fairfax and Sylvia Cook, whose historic trans-Pacific row from San Francisco to Australia was completed Saturday, are spending their final day in Australia before returning briefly to England. They leave Sydney Tuesday for London and plan to return to Australia in about three weeks. Both looked remarkably fit only three days after their 361-day, 3,000-mile row in the 35-foot rowboat Britannia II. It was at Rayman, a tourist resort 700 miles north of Brisbane, that their voyage ended.

Frenchmen voting in a referendum Sunday welcomed Britain into the Common Market, but the reduced turnout raised opposition hopes of cutting sharply into the Gaullist majority in the National Assembly elections next year. Interior Minister Raymond Marcellin announced that 39.64 per cent of the 29,312,637 registered voters stayed away from the polls Sunday, 36.17 per cent favored the enlargement of the West European trade bloc, 17.12 per cent voted no, and 7.07 per cent cast blank ballots. The yes-no vote was 10,601,645 to 5,020,683.

One of Howard Hughes's top personal aides said Sunday he was surprised at reports he is being sought by the RCMP on a warrant from the Quebec Securities Commission. Howard Eckerley arrived in Salt Lake City about two weeks ago after staying with the Hughes party at Vancouver's Bayshore Inn. Eckerley said he was in Salt Lake because it is his home. He said he has been in contact with investigators for the RCMP and "the Canadian minister of financial institutions and they haven't found any discrepancies in what we reported to them." Eckerley said he understands there will be a meeting of Canadian authorities today to "straighten out the warrant matter." A warrant was issued against him Thursday in Montreal in connection with an alleged fraud said to involve \$262,000. Eckerley is charged with fraud, publishing a false prospectus and conspiring to do both in connection with his position as president of Pan American Mines Ltd.

Mme. Nguyen Thi Binh, head of the Viet Cong delegation to the Paris peace talks, has written to all members of both houses of the U.S. Congress asking them to use their constitutional power to force President Nixon to end the Vietnam war, it was announced today.

State Secretary William Rogers said today in a film presentation at the annual meeting of The Associated Press that President Nixon hopes to be able to sign a strategic arms limitation agreement with the Soviet Union when he visits Moscow next month. Halting the flow of Soviet arms to North Vietnam also will be discussed during the president's Moscow trip, Rogers said, although, "we have no reason to think they will" do so.

David Lewis, leader of the New Democratic Party, predicted Saturday night that the federal government's new plan for distributing family allowance benefits will be a "nightmare" to administer. "The unemployment insurance mess will be child's play compared to this," he said. The NDP leader said the government's plan to allot family allowance payments on the basis of income will penalize the wage-earner group that contributes the greatest portion of taxes. Families earning between \$7,500 and \$10,500 will lose most or all family allowance benefits, he said. This middle-income group, he said, contributes the most taxes, and often has trouble keeping out of debt.

The United States believes that nations must exercise greater control over the fish stocks off their coasts to prevent exploitation of ocean resources, says a top official of the commerce department. Dr. Robert M. White, administrator of the national oceanic and atmospheric administration in the commerce department, outlined the problems of fish exploitation in a lecture Sunday at the New Bedford, Mass., Whaling Museum.

President Bhutto of Pakistan said Sunday he might repatriate Indian prisoners of war regardless of whether Indian Prime Minister Indira Gandhi responds to his offer. "If Mrs. Gandhi doesn't reply to my offer, I might unilaterally send them to the border," he told correspondents. Bhutto said at his inauguration Friday that he would return 600 Indian soldiers held prisoner if Mrs. Gandhi asked for them.

## Quebec Schools Back To Normal

MONTREAL (CP) — Teachers and civil servants—and about 1.5 million school children—returned to their desks at schools and government offices across Quebec today for the first time since April 10.

The return was apparently without incident, despite continued rumblings of dissension within the Quebec labor movement over emergency legislation that ended a province-wide strike by 200,000 public servants Saturday.

The 11-day strike closed virtually all schools, government offices and liquor stores and severely curtailed hospital service.

Non-medical hospital workers returned early Saturday morning. Liquor stores re-opened Saturday and long lines soon developed following the extended "dry" period.

In Quebec City, return of the civil service today brought the first major morning-traffic congestion since the strike started.

CHANGE MINDS  
The return to work was recommended just before midnight Friday night by leaders of a common front of public service

unions after they had suggested about six hours earlier that the strikers stay out. Heavy penalties were built into the strike-ending legislation, passed just before 3 p.m. Friday in the national assembly after a 23-hour and 45-minute non-stop debate.

Presidents Marcel Pepin of the Confederation of National Trade Unions, Louis Laberge of the Quebec Federation of Labor and Yvon Charbonneau of the Quebec Teachers Corp., the three groups that formed the common front, changed their recommendation after a province-wide polling of membership reaction.

They said the 12:01 a.m. Saturday deadline for an end to the strike, built into the emergency law, left inadequate time to sample feelings among the rank and file.

Earlier disobedience of court injunctions against a strike by essential hospital workers brought fines up to \$5,000 and prison terms of six months against 21 union leaders cited for contempt of court. Several unions also were fined, one of them \$50,000. Two other strikers were fined but given no prison terms.

PERTH (AP) — Four cartons of Western Australian beer are on their way to Houston for the Apollo 16 astronauts.

The gift follows a conversation Saturday in which moon walkers Charles Duke and John Young joked about having a "cold Swan."

The conversation apparently puzzled some listeners, but Swan Brewery's public relations man explained that some of the astronauts had been to the Carnarvon satellite station near Perth and they remembered the local beer.

HOUSTON (AP) — If archaeologists visit the Apollo 16 lunar landing site in the future there will be plenty of evidence astronauts John Young and Charlie Duke were there.

Some of the leftovers, such as the moon rover with its swiveling television camera and the base of the lunar lander, were carefully planned and scheduled. Others were inadvertent.

"Guess what, John?" Duke said early in the third moon exploration Sunday. "My SCB (sample collection bags) fell off somewhere."

The plastic-like bags are used to hold soil and rock samples.

"Are we through with the rakes?" Duke asked Mission Control as they were returning to the lunar lander. Ground control said they were. "Okay, here goes. Ah-h, look at that beauty go."

The specially built rock-collecting instrument soared out across the moonscape.

A few minutes later, Duke dismantled the cosmic ray detector experiment—much

to the moon.

## Two Bombs Dismantled

BERLIN (AP) — Two homemade bombs found on a U.S. Air Force plane used as a memorial to the 1948 airlift were dismantled Sunday 40 minutes before they were timed to explode.

"These were explosive devices rather than incendiaries," said an air force spokesman at Tempelhof Airfield, where the C-54 Skymaster is mounted for public display. "Had they gone off there would have been considerable damage and we certainly would have had to get another airplane for our memorial."

It was the third attempted bombing against an American property in West Berlin in a fortnight. The first involved the private car of a U.S. mission spokesman; the second was at the U.S. Army Officers Club a few days ago.

ANNOUNCE POSTS  
VICTORIA (CP)—The University of Victoria has announced two appointments. Dr. S. A. Jennings has been named dean of graduate studies, succeeding Dr. A. R. Fontaine, and Dr. M. H. Scargill has been named head of the linguistics department for a five-year term, succeeding Dr. Jean-Paul Vinay, recently named dean of the faculty of arts and science.

CLEANS ITSELF  
MONTREAL (CP) — Self-cleaning houses are only 10 years away, says 30-year-old Montreal designer Pierre Duperre, who has already built two completely furnished moulded rooms using cement, plaster and a shiny epoxy finish for \$4,000 each. To wash such a dwelling, remove rugs and pillows, turn on a soap-filled sprayer system, using rinse and dry cycles then move back in.

HOUSTON (AP) — Charlie Duke's mother watched her son tumbling around the moon Sunday and said: "He's going to take ballet lessons when he gets home."

Nimble-footed he is not, admitted the astronaut's wife, Dottie. "But I was probably more concerned with his getting tired than hurt... I knew he'd get up."

By his own count, Charlie fell five times as he and Apollo 16 commander John W. Young landed the lunar surface for three days.

A television audience watched live as Duke took his final spill, toppling over on his back during what he called an abbreviated "Lunar Olympics."

Back home, the astronaut's mother, Mrs. Charles Duke of Lancaster, S.C., said she never dreamed she'd see a son on the moon "but it's a wonderful feeling."

AROUND B.C.  
Kamloops Area Mayors Meet  
KAMLOOPS (CP)—A committee of mayors from the greater Kamloops area plans to look into management of essential services in communities in the area. The decision was made Saturday at a workshop organized by the Thompson Nicola Regional District following unsuccessful attempts to form one municipality in the area.

Any of the above organizations wishing to use this space must either bring in their copy or phone it to the newsroom of the Courier no later than noon Friday for the following Monday edition. When phoning in ask for the NOCA Calendar events editor.

MONDAY  
Annual meeting of Okanagan Society for Children with Hearing Handicap will be held in South Okanagan Health Unit (annex) on Queensway Avenue. All interested people may attend.

THURSDAY  
Okanagan Valley Music Festival will be held in Centennial hall and Dr. Knox School gym during the day. Thursday and Friday at 7 p.m. Thursday will feature senior bands and Friday will be championship night.

Kelowna citizens association annual general meeting at 8 p.m. in Women's Institute hall, Lawrence Avenue. A beef and banquet session will be part of this year's meeting. The public is invited along with members.

BI-annual general meeting of Kelowna Lawn Bowling Club will be held in the Clubhouse at City Park. Non members, men and women are welcome to attend.

WEDNESDAY  
Okanagan Mission Community Hall Women's Auxiliary will hold a coffee party and bake sale at 10 a.m. It will be in Mission community hall. Everyone welcome.

The ACW spring tea and bazaar will be held in Anglican Parish Hall, 2 p.m. Home baking, white elephant and plant stalls.

George Fringle Secondary School will hold open house, 1 to 4 p.m. There will be displays of equipment, projects, art, metal and wood work as well as day to day activities of a secondary school. Coffee will be served.

Kelowna North Little League schedule, Lions vs Midvalley, 4 p.m. OV vs People's, 1 p.m. OKBP vs Kinnamen at 10 a.m. All games will be held in Recreation Park, Richter Street.

Kelowna Babe Ruth 20 mile walkathon, beginning at Elks Stadium, 8 a.m. The walk ends in the stadium. All proceeds to Babe Ruth baseball.

NOCA PRODUCTS  
In Kelowna more and more people are turning to their local dairy, NOCA Dairy. Their milk is produced, and delivered locally by local citizens who earn their livelihood locally and whose earnings enter the sales channels of local economy... Yes, locally produced milk helps to build a greater community.

## TODAY'S STOCK QUOTATIONS

Submitted by Pemberton Securities Ltd.  
1654 Ellis St.

TORONTO (CP) — The Toronto stock market turned fractionally lower in moderate mid-morning trading today.

The industrial index was down .67 to 201.28 and base metals .03 to 97.03. Golds were up .38 to 177.57 and western oils .36 to 221.46.

Volume by 11 a.m. was 611,000 shares, down from 659,000 at the same time Friday.

Declines outnumbered advances 126 to 100 with 197 issues unchanged.

Biggest losers were beverage, merchandising, pipeline, trust and loan, steel and banking issues. Industrial mining, general manufacturing and chemical stocks edged fractionally higher.

VANCOUVER (CP) — Prices were up in active trading on the Vancouver Stock Exchange today with a volume of 1,394,561 shares.

Melton Real Estate led the industrials, gaining .10 at \$2.85 on volume of 1,800 shares.

In the oils, Canadian Hydro Gas was down .09 at .91 on 4,000 shares traded.

Highland Mercury led the mining section, gaining .15 at .65 on 475,600 shares.

JOHN L. FARRIS, Q.C.

John L. Farris, Q.C. of Vancouver was elected a director of the British Columbia Telephone Company at the company's annual meeting.

Mr. Farris, the current president of the Canadian Bar Association, was born in Vancouver and was educated at public schools there and in Victoria, at the University of B.C. and at Harvard Law School.

He served during the Second World War in the Adjutant General's Branch and the Judge Advocate's Branch of National Defence Headquarters, and from 1945 to 1955 lectured on commercial law at the University of British Columbia. He was appointed King's Counsel in 1950.

He is the senior partner in the law firm of Farris, Farris, Vaughan, Wills & Murphy and is a director of the Toronto-Dominion Bank, Pacific Petroleum Ltd., Sun Publishing Company Ltd. and Kelly, Douglas Ltd.

## SHOOTING FOR FUN AND COMPETITION

Local shooting buffs hone up on marksmanship at the city's only trap range in preparation for the hunting season. The popular sport not only

sharpens the eye for future hunting conquests, but also provides for a lot of personal "blunderbuss" fun in competition with friends and other

groups. The Kelowna Trap Club, with a membership of 32 meets every weekend, with some 15 to 20 trap shooters

turning up each Sunday at the club's location at Sportsman's Field on Casorso Road. The organization is planning its

annual round table shoot May 6 in competition with other Okanagan groups. (Courier Photo)

## New Government Symbol For B.C. - Grown Produce

A new symbol identifying B.C.-grown food products has been unveiled by Waldo M. Skillings, Minister of Industrial Development, Trade and Commerce, and Cyril Shelford, Minister of Agriculture, to mark the start of a major government promotion of B.C. foods.

The symbol, incorporating a stylized dogwood and the slogan "Home Grown B.C. Quality," has been designed to provide shoppers with easy recognition of locally-grown products.

It will be incorporated on packaging and display materials in food stores and promotional literature and print advertising. "There is no sense in telling shoppers about how good B.C. foods are if they can't identify them when they get to the stores," explained Mr. Skillings, whose department has the prime

responsibility for the promotional campaign.

"This symbol can be adapted to all sizes—from posters and large display signs down to application on the smallest package."

## Six Jaunts Into The Field For Okanagan Parks Society

The Okanagan - Similkameen Parks Society plans six field trips this year, Leon Blumer, chairman of the field trips committee, reported on the up-coming hikes at the annual meeting this week.

The first will be in the Vaseux Lake area April 30. Hikers will meet at the Vaseux Lake campsite at 9:30 a.m. to walk approximately five miles.

The second trip, May 7, will be to Wild Horse Canyon at Okanagan Mountain. Hikers will meet at 9 a.m. about one-eighth of a mile on the Kelowna side of Deeper Creek, on open headland.

They should park on the left side of the road. The hike is about 12 miles return.

The next trip will be May 14 to the Osoyoos Arid Biotic Area eight miles south of Oliver. Participants should turn off Highway 97 beside the Consumer Concrete Company plant, cross the meadow and bridge of the canal and meet at the old ranch house. The walk is two miles. June 25 is the date of the next trip, to Conkle Lake. Details will be announced later.

Apex and Brent Mountains will be the destination of the July 23 trip. Hikers will meet at 8:30 a.m. at Long's Building Supplies on Fairview Rd. The walk is approximately 12 miles return. The date was chosen to coincide with the peak of the alpine flower display.

The final trip will be a weekend camping expedition to Cathedral Lakes Park south of Keremeos. Jeeps will meet parties at 6 and 8 p.m. Aug. 4 at the bridge crossing near the park, approximately 12 miles from Keremeos, to take people and gear to camp 11 miles away.

Cost of the jeep ride is \$10 return and gear costs an additional \$2. Participants should notify Mr. Blumer a month ahead of time.

On all trips, participants should bring a lunch, water bottle, rain-gear, and first-aid kit. They should wear stout shoes and stay with the party. In dry country a snake-bite kit is recommended. Matches in a water-proof container, a map and compass are recommended.

DANIEL CURRELL

## Community Resources On A Personal Basis

"I came to Saskatoon when there were 112 people," says Kelowna senior citizen Daniel Currell, who celebrated his 89th birthday Feb. 17.

Still active with fishing, gardening and golfing diversions, Mr. Currell is a spry testimony to longevity.

Born in Belfast, Ireland, in 1883, he migrated to Canada in 1904, settling in Saskatoon where he stayed for four years as a homesteader. In 1908, he moved to Vancouver until 1914 when he came to Kelowna.

An accountant by profession, Mr. Currell joined the Canadian Army engineers corps during the First World War expecting to see action, but his superiors thought him more valuable in his civilian trade and he served two years in that capacity. He spent 10 years with a Vancouver chartered accounting firm which he joined in 1920.

Mr. Currell retired from business life in 1960 to pursue such leisure endeavors as golf, fishing, and gardening. He has four times been married, but

DANIEL CURRELL  
... spry testimony

refused to disclose his average score. He has a son, Patrick, living in Kelowna, and a daughter, Helen, residing in Kamloops.

## Decision Awaited

A decision is expected in about three weeks on the application of six Okanagan communities seeking accreditation for a joint organization to negotiate contracts with employees.

Kamloops, Salmon Arm, Kelowna, Penticton, Oliver and Osoyoos were originally accredited last September through the Labor Relations Board as the Okanagan Mainline Municipal Labor Relations Association. OMMLRA has since had to reapply for accreditation because of a procedural defect in the manner in which the six communities formed the bargaining organization.

## ... Sunny

The weatherman forecasts clearing this evening. And his outlook for Tuesday is for sunny skies and a few cloudy periods. The high for Tuesday is predicted to be a pleasant 55 to 60 degrees. The high and low in the city Saturday was a cool 54 and 35 compared to 53 and 26 for the city on Sunday. The high and low at the airport Saturday was 53 and 28 degrees, compared to a warmer 56 and 24 for the airport on Sunday. There was no precipitation recorded over the weekend for the city or airport. Overnight low today is expected to be near 35 degrees.

CANADIAN DOLLAR  
NEW YORK (CP)—Canadian dollar up 1/4 at 1.00 43-64 in terms of U.S. funds. Pound sterling unchanged at \$2.60 63-64.

## VETERANS' UNIT ESTABLISHED

Gunnar T. Gunderson (right) accepts the unit plaque from provincial command secretary Tommy Fontaine Saturday at the inaugural meeting of Unit 576 of the Army, Navy and Air Force Veterans. Mr. Gunderson is the president of the

newly established local unit. Among about 75 attending the inaugural meeting were other officers of the provincial command and acting mayor Ald. Gwen Holland.

—(Ken Rink Photo)

## IN COURT

Howard Gabreau, of Winfield, was fined \$100 for driving without a valid driver's licence and remanded to April 26 for sentencing after he pleaded guilty to a charge of leaving the scene of an accident.

Gary Douglas Mower and Stephen Dale Jopson, both of no fixed address, were remanded without plea to April 25, charged with possession of LSD.

Glen Fergus McPherson, of Kelowna, was fined \$200 and prohibited from driving for one month, after pleading guilty to a charge of driving with a blood-alcohol level exceeding .08 per cent.

Paul John McHaffie, of Rutland, was remanded without plea to May 1, charged with possession of a stolen gold nugget, valued at less than \$50.

John Gordon Begg, of Kelowna, was remanded without plea to April 26, charged with driving with a blood-alcohol level exceeding .08 per cent.

Henry Lukinuk, of Okanagan Mission, was remanded to May 1 on the same charge.

## SEEN and HEARD

Arrangements may be made for the limousine connecting Kelowna and the airport to pick up passengers in Rutland, says operator Oliver Gauthier of Kelowna. He is thinking of having a merchant phone in when there are passengers to be picked up.

The Kelowna Citizens Association has scheduled a public meeting Thursday in the Women's Institute Hall at 8 p.m. Besides election of new directors, the planned agenda includes invited comments from the floor on civic, municipal and regional government as well as matters related to the association. Comments will also be encouraged through a "beef and banquet" box at the door.

There are a number of ways of proclaiming momentous occasions, but one proud parent has come up with a novel idea. A fence along Bernard Avenue has a message to the public on it, "It's a boy — 7 pounds 5 ounces." Congratulations.

## Mary Higgins Funeral Held

Funeral services were held from The Garden Chapel, Sunday at 3 p.m. for Mrs. Mary Ol Higgins, 78, of Brendalee Road, Westbank, who died Friday.

Mrs. Higgins is survived by four sons, Ivan of Westbank, Paul of Moncton, Alton and Vaughan, both of Calgary; one daughter, Mrs. Vernon Deming of St. John, New Brunswick; 14 grandchildren and six great-grandchildren.

Rev. L. G. Hind officiated. Remains are being forwarded to Newcastle, New Brunswick, to be buried in the family plot.

## Hospital Statistics Released

Kelowna General Hospital adult and children admissions during March fell from 611 to 593 this year, while overall in-patients to date rose from 1,729 last year to 1,748 to date this year.

The increase is also reflected in out-patients which rose from 3,563 to date last year to 7,381 to date this year. In the same category, there were 2,777 out-patients during March this year, compared with 1,951 for the same period in 1971.

Patient days during March this year totalled 5,289 as against 5,415 for the corresponding period in 1971. Patient days to date this year total 15,701, a rise from 15,608 in 1971. Average day's stay during March this year was 9.1 from 9.2 in 1971, with 8.9 average days to date this year, compared with 9 days for the same period in 1971.

Newborns during March rose to 83 this year from 74 for the same period last year, with 201 to date compared with 196 for the same period in 1971.

## Lockout Notice Served 'Sitting Tight' Locally

Local construction was still in progress at noon today pending official word from the Construction Labor Relations Association which threatened to lock out the entire industry if one union strikes a member firm.

And earlier this morning, plumbers went on strike against five more contractors in the Lower Mainland resulting in swift action by the CLRA in issuing 72-hour retaliatory lock-out notices on 18 construction industry unions.

But in Kelowna, Patrick Graves, area representative of local 170 of the Plumbers, Pipefitters and Steamfitters Union, said, "we haven't been told a thing as of noon today." He indicated all local plumbers were still on the job.

The swift developments in the dispute between the CLRA and the B.C. and Yukon Building

and Trades Council resulted from "escalation of strike action by the plumbers' union," said the CLRA.

Herb Pulman, president of the Southern Interior Construction Association, could offer no comment on the local situation saying "everybody's just sitting tight at the moment."

The plumbers went on strike against four contractors in Vancouver and one in Burnaby just five hours before Labor Minister James Chabot was to meet with both sides in "last ditch efforts to avert a shutdown."

No pickets were immediately established.

Talks between the building and trades council and the CLRA broke down during the weekend.

The labor minister put the situation into grim perspective when he announced his intention

to meet with labor and management representatives. "It appears that negotiations have broken down, positions have hardened up and there's no compromise from either side," Mr. Chabot said Sunday.

"It seems that there'll be a shutdown by lockout or by strike early this week and I'm attempting to avert that."

Neither the CLRA nor union officials would comment.

Talks in the industry resumed Friday after the CLRA made an offer of an average increase of 6.5 per cent in wages and fringe benefits in each year of a two-year contract.

The CLRA, with a lockout mandate from its 840 member contractors, has threatened to lock out the whole industry if one union strikes a member firm.

Plumbers went on strike against three Vancouver-area firms last week however, without any action being taken. Saturday, ironworkers at three Vancouver firms voted 83 per cent in favor of strike action in what they called a "defensive move."

A lockout in 1970 shut down the industry for three months. Eighteen unions with a membership of 60,000 are involved. Contracts in the industry expired at the end of March.

## FOR SCHOOLS

## Average Mill Rate The Same But District 23 Up From '71

Increased grants to school districts under the education finance formula, as well as grant hikes to colleges will result in "practically no increase" in province-wide average school mill rate.

The statement was contained in a directive from Education Minister, Donald Brothers, who added because of the home owner grant increase the majority of residential property owners "should have a reduction in local school taxes for 1972."

To reduce local school taxes on residential property owners, the government increased the home owner grant from \$170 to \$185 and provided an additional grant of \$50 to property owners over 65.

A total of \$72,570,000 has been provided for these grants.

The government has provided direct grants of \$188,000,000 to elementary and secondary schools and, in addition, has also provided \$8,520,000 for teacher superannuation as well as \$1,000,000 for teacher unemployment insurance. The directive also adds the government has also provided \$22,000,000 for college grants to school districts and direct payments to colleges for vocational training. The total sum of provincial grants and payments to school district education and training cost was listed as \$282,090,000.

The government announced the basic levy for school taxes for the 1972 calendar year at 24.7 mills, adding the average province-wide mill rate for elementary and secondary schools and colleges was 31.89, compared with 31.88 in 1971.

The 1972 mill rate in School District 23 (Central Okanagan)

is 32.26 mills, as against 30.63 in 1971. Operating budget this year in the district is \$10,822,844, compared with \$9,125,837 in 1971.

The increased budget figure this year is due mainly to construction of more educational facilities in the district.

The basic school tax levy is based on the total assessed value of land plus 15 per cent of assessed improvement values, and in most of 75 school districts in the province direct education taxes are offset by the home owner grant.

The government estimates it will spend \$210 million this year in operating costs for schools and community colleges, with more than 90 per cent of the total gross amount budgeted by school districts for operating expenses of public schools eligible for the grants, the government directive points out.

It also indicates the difference of 7.19 mills between overall average mill rate of 31.89 and the basic 24.7 levy covers the local share of debt and capital costs, college costs and the full cost of excess operating budgeted by school districts above the amounts eligible for provincial grants.

Mr. Brothers said the provincial government "is doing everything possible to assist the local taxpayers in meeting the rising costs of education" by allotting 31 per cent of its \$1.4 billion budget for education.

He warned spending of these public funds, is done by local education authorities, and it was "their responsibility to make certain that full value is received for every education tax dollar they spend."

## 70 Per Cent Of Its Goal

The local Canadian Cancer Society campaign, which ended Sunday, is within 70 per cent of last year's \$23,000 collected total.

Sub-chairman of the Okanagan, Rutland, Winfield drive, Win Shillock, said today the campaign "went very well" although tabulations have not yet been completed on various campaign areas which also included Kelowna, Westbank, Lakeview Heights, Cass Loma and Okanagan Mission.

The local campaign is still accepting donations which may be brought or mailed to the South Okanagan Health Unit, 390 Queensway. On request, donations will also be picked up at residences or companies in the campaign areas by contacting campaign headquarters at 3-6678.

Although officially completed Sunday, the drive will be kept alive to donations for another week.

## 24 Hours In Jail

The provincial government's new bail reform act came in for a bit of a test in Kelowna Provincial Court today when Judge R. J. S. Moir ruled the RCMP could hold an arrested person for 24 hours before laying a formal charge.

Michael Dirk, defence counsel for a Kelowna youth arrested Sunday, said his client should have appeared in court this morning as the 24-hour period is not mandatory, "and there has been an undue delay as far as the police are concerned in bringing this matter before the court. I ask the court to order the Crown to bring this boy forward immediately."

Crown Prosecutor, Hans Burkl said, "The Crown is not trying to abuse this 24-hour period, but has spent the time preparing its information correctly," adding that the youth was to appear in court later today.

Judge Moir said, "As I read the act... they (the police) can, rightly or wrongly, insist on that 24-hour period."

## Junior Forest Warden Club Being Formed At Westbank

Junior Forest Wardens of B.C. will form a club in Westbank area in the near future. The first organizational meeting will be in the United Church basement hall, Tuesday, at 7:30 p.m.

The youth oriented movement is sponsored by Canadian Forestry Association of B.C. and is a non-profit, non-political group devoted to the cause of conservation, education and protection of natural resources.

Most of Junior Forest Warden courses are action programs planned to get wardens out of classrooms and into the woods for practical training.

Some of the courses are forestry, woods travel, first aid, water safety, tree identification, radio communication and fire fighting.

All boys are to be accompanied by a parent to the organizational meeting.

A regional summer camp is under construction at Silverlake, near Peachland, and Junior Forest Wardens from Westbank area will have an opportunity to attend a seven-day conservation training camp.

This will include fishing, canoeing, hiking, and conservation education.

## ANOTHER BOOST FOR SAFETY

More funds for the Kelowna and District Safety Council's school bicycle safety program are contributed by fire chief Charles Pettman acting in the capacity of Kelowna Rotary Club president, A.L.

member of the council, Mr. Pettman made the \$100 cheque presentation to bicycle safety chairman, Mrs. J. E. Harland, at the regular meeting of council Wednesday. The program began early this

month as a pilot project in three schools, backed by material from the British Columbia Safety Council and School District 23.

## Think Child Safety The First Week In May

May 1 to 7 is Canada's National Child Safety Week, a time to consider our responsibilities in protecting our young.

The toll taken of children's lives and health in Canada by accidents is staggering—some two thousand killed and tens of thousands injured seriously.

What can be done about it? There is no easy solution but progress will be made in reducing accidents through simultaneous improvement in the following four areas:

Safety education of children at home and school.

Creation of a safe environment for children.

The assumption of parental responsibility for the safety of children.

The assumption of responsibility by adults, especially drivers, for the safety of children.

To be effective, safety education must change the attitudes of children towards safety, starting in the pram and continuing until adulthood.

Children must know how to cope with traffic before being allowed to 'run out and play.' They must know the rules of the road and traffic safety before being allowed to bicycle on public roads. They must be taught to swim before allowed to play in any but shallow bodies of water.

To create a safe environment for children, all poisonous substances must be kept away from tots as well as stove and electrical hazards. The very young should never be left alone in baths or wading pools.

A safe environment includes living in a home that is not a fire trap. The leading causes of fire are adults smoking, electrical hazards and defective heating. A safe environment includes a car in which child passengers are secured by restraining devices.

Parental responsibility for a child's safety is concentrated on the patient, positive teaching of safety starting with the very young. But this can all be undone if the parent himself or herself fails to teach by example.

It is not intended to give parents guilt complexes about safety. They can hardly be held responsible for the safety of children when they are

out of their control.

But it is not reasonable to place all the blame for accidents on children, either. They do not start off as mature people with judgment. That takes a long, long time. They have short attention spans. They may be safe most of the time but unsafe at others because they are distracted by something new, something exciting.

This is where the responsibility of all adults for the safety of children is most important. Should a child be sentenced to death because a driver wants to go at the maximum speed through a residential area and a youngster makes a mistake?

Adults must recognize that there are many kinds of children—some careful, some risk-taking, some too careful for their own good (like the adult driver who goes 25 mph in a 60 mph zone.)

Minister of National Health and Welfare John Munro in a message to Canadians said, few tragedies can be as heart-breaking as death of an innocent child. We learn of a child struck down by a car, cremated in a burning home, drowned in the midst of a joyful swim or perishing by inadvertently swallowing poison, and our hearts bleed.

But do we do anything to stop this needless slaughter of the innocent?

The message went on to say that adults—not just parents and teachers—must assume the responsibilities for the safety of our children. We must train them from birth to avoid dangers. We are also committed to keeping dangers out of their way, to protecting them when they cannot protect themselves.

The message concluded that children are not naturally imbued with protective instincts but they are naturally imbued with trust in the adults who surround them.

There are children who can be trained easily and others who have to learn through their mistakes. But Canada has need for all these different types of individuals.

Guard their lives. Always be on the lookout for the safety of children. Always give them a break. They are the future of the country.

## IT HAPPENED IN CANADA

## Stanfield Won't Use Piston Job When He Does His Electioneering

OTTAWA (CP) — When the Conservatives began planning for the next general election campaign, one of the first decisions was that Robert Stanfield would never again wallow across Canadian skies in an old piston-driven airplane.

With Prime Minister Trudeau zipping around in a jet during the 1968 campaign, the comparison was too obvious.

So this time, the party has made arrangements to charter a twin-jet DC-9, the same type of plane Mr. Trudeau used in the last campaign, and the type he is likely to use again.

Both leaders will make short, snappy forays out of Ottawa—as Mr. Trudeau did last time—and thus create the impression of being everywhere at once.

Mr. Stanfield, however, is not adopting many other of Mr. Trudeau's methods.

In a speech prepared for delivery to company stockholders, Mr. Holbrook said Ottawa must take action to protect segments of the steel industry from unfair cut-price competition.

"Whole segments of the United States industry have been effectively destroyed by imports from Japan and elsewhere," he said.

"I don't want the same thing to happen here, and I don't think it has to."

Mr. Holbrook told the company annual meeting imports increased by 46 per cent in 1971 until they made up 20 per cent of the steel used in Canada—at most 2,000,000 tons—compared with 15 per cent the previous year.

"A very large part of the increased imports came from Japan which more than doubled its shipments to Canada last year."

"Shipments into Eastern Canada, where Japanese steel was not previously an important factor, increased more than five times to 400,000 tons."

**FACILITIES THE BEST**  
Mr. Holbrook said "it is well known that the Japanese producers are given a great deal of encouragement and assistance by their government, enabling them to build 'some of the most modern and efficient facilities' in the Western world over the last decade."

The Japanese mills are built at capital costs far lower than those prevailing in North America and "in operating these facilities they have the advantage of hourly employment costs less than one-third those in Canada, as well as rapidly rising output per man hour."

Mr. Holbrook said Japanese tariff and administrative barriers give almost total protection in the home market.

"I would venture to say that not one-tenth of one per cent of the steel consumed in Japan comes from elsewhere."

Canada's anti-dumping legislation requires that Canadian prices be lower than those charged in the foreign producers' home market, and that dumping has caused material injury to Canadian production.

But home-market prices "are almost impossible to pin down," and few Canadian producers have been successful in proving they had suffered material injury.

The Canadian industry probably was not seriously damaged by the sharp rise in imports in 1971, he said, but if the trend in imports continues "the existing anti-dumping legislation is not going to be very helpful to the Canadian steel industry."

**LETTER TO EDITOR**  
**A DIAGNOSIS**  
Sir: If Alan McIntosh, MD (letter, April 20, 1972) can manage to cool his hilarity for just a second, I would like to set the record straight for him.

The recent council salary increases (long overdue) were not of Mayor Roth's instigation, but came as the result of an independent study.

It must be many a year since an MD had to get by on an income comparable to the modest stipend granted the mayor. Only a man of Hilbert Roth's dedication would think it worthwhile.

That same dedication prompts him to ignore party lines in seeking the quickest way to realize his plans for the betterment of his fellow man.

If Dr. McIntosh could swap shoes with the mayor for an hour, he'd find it takes a lot more than a bedside manner, or even a couple of aspirins, to resolve the problems of the City of Kelowna.

Yours truly,  
ED SPILLER.

In the 1968 campaign, Mr. Stanfield stressed quality of life while Mr. Trudeau was overpowering that with his just society.

One thing Conservatives plan on avoiding this time are long-term commitments to any schedule for the leader. "Flexibility, is our objective," says one official.

**FEWER PROBLEMS**  
This is designed to eliminate some of the 1968 problems—the leader being committed to a lengthy stay in one region when unscheduled events would have made it more profitable for him to be in another area.

Only in the case of major rallies will plans be completed more than four or five days in advance.

Except in the West, where big meetings remain the most attractive feature of campaigns, Conservative planners are hoping to keep rallies to a minimum. They feel that as much can be accomplished through a televised chat with a farmer or factory worker as through a strenuous 40-minute speech in a hall.

Unlike 1968, the Conservative organization is highly tuned for the coming campaign. The headquarters staff has been beefed up with experts, advance teams are ready to move across the country to lay the groundwork for Mr. Stanfield's visits, and a whole new communications network has been established.

"If groundwork by itself won elections," said one organizer, "we'd have it."

## Algoma Steel Chief Raos Japan For Its 'Unfair Competition'

SAULT STE. MARIE, Ont. (CP) — Canada's anti-dumping legislation is almost totally ineffective against unfair competition from foreign steel producers, particularly those in Japan.

David S. Holbrook, president of Algoma Steel Corp., said.

In a speech prepared for delivery to company stockholders, Mr. Holbrook said Ottawa must take action to protect segments of the steel industry from unfair cut-price competition.

"Whole segments of the United States industry have been effectively destroyed by imports from Japan and elsewhere," he said.

"I don't want the same thing to happen here, and I don't think it has to."

Mr. Holbrook told the company annual meeting imports increased by 46 per cent in 1971 until they made up 20 per cent of the steel used in Canada—at most 2,000,000 tons—compared with 15 per cent the previous year.

"A very large part of the increased imports came from Japan which more than doubled its shipments to Canada last year."

"Shipments into Eastern Canada, where Japanese steel was not previously an important factor, increased more than five times to 400,000 tons."

**FACILITIES THE BEST**  
Mr. Holbrook said "it is well known that the Japanese producers are given a great deal of encouragement and assistance by their government, enabling them to build 'some of the most modern and efficient facilities' in the Western world over the last decade."

The Japanese mills are built at capital costs far lower than those prevailing in North America and "in operating these facilities they have the advantage of hourly employment costs less than one-third those in Canada, as well as rapidly rising output per man hour."

Mr. Holbrook said Japanese tariff and administrative barriers give almost total protection in the home market.

"I would venture to say that not one-tenth of one per cent of the steel consumed in Japan comes from elsewhere."

Canada's anti-dumping legislation requires that Canadian prices be lower than those charged in the foreign producers' home market, and that dumping has caused material injury to Canadian production.

But home-market prices "are almost impossible to pin down," and few Canadian producers have been successful in proving they had suffered material injury.

The Canadian industry probably was not seriously damaged by the sharp rise in imports in 1971, he said, but if the trend in imports continues "the existing anti-dumping legislation is not going to be very helpful to the Canadian steel industry."

## Tourists Still Go To Cuba But Things Are 'Wearing Out'

HAVANA (CP) — Cuba still has a tourist industry but it caters mainly to Cubans and most of the foreign visitors who come to lie on the island's beautiful beaches are from socialist countries.

The hotels—most built by developers with United States affiliations—have the same problems as the American-made cars that struggle noisily along Havana streets. They need replacement parts to bring them up to North American standards and American companies no longer will sell.

Group tours of Canadians to Cuba began in March under the director of a Toronto travel agency, which scheduled five charter flights on an experimental basis.

Graham Atkin, president of Unifours, said in an interview in his Toronto office that he was asked in 1969 by the Cubans if his firm was interested. This was a time when Cuba was developing contacts in several areas to improve relations and trade with Canada.

Atkin said one of his first problems was chartering an airplane. He got in touch with regional carriers in Canada and was told they did not want the job because it might jeopardize their charter business with U.S. government agencies, such as those maintaining DW line installations.

He wrote the U.S. state department asking for a clarification of government policy and subsequently received a telephone call from a consular official in Toronto.

Atkin said he was told "the United States government and the OAS (Organization of American States) would not condone any activity which would put new sources of foreign exchange in the hands of the Castro government."

Air Canada was then approached and after lengthy discussions, Atkin said, the Crown corporation agreed to provide a charter aircraft.

Unifours first scheduled a charter tour to Cuba in November, 1970, but Air Canada cancelled out, saying equipment was not available. The charter was then cancelled.

Atkin said another problem has been finding accommodations that approach North American standards. The Unifours group spend four days at Varadero Beach and four days at Havana—about two hours apart by car or bus.

**FEAR BLACK MARKET**  
Lack of adequate facilities apparently is one reason why the Cubans have been cautious about encouraging tourism and one observer of Cuban foreign trade and relations said another reason is the "reactionary ethic." Facilities once reserved for wealthy tourists and high-income residents have been converted to accommodate mass groups.

Tourists may expose Cubans to influences that the Castro government considers undesirable and they may expand black market trading in a country where consumer items are scarce.

A large portion of available hotel rooms in Cuba is reserved for honeymooners. Cuban couples get about a week free at a hotel when they marry.

Russian tourists come to Cuba regularly. There is an Aeroflot flight weekly from Moscow and a diplomat in Havana said the trip is a reward for exemplary Soviet workers.

"The first time I came here I thought the Russians were badly dressed," a European businessman who makes regular trips to Cuba said. "But after I had been here a month I didn't think so."

**SHORT OF MEAT**  
The clothing the Cubans have is plain and so is the food.

Lack of meat at restaurants is one of the things that makes Cuba an unattractive vacation spot for many North Americans.

Another irritant for visitors is the fact that there are frequent periods of electric power failures, often in the early evenings.

Hotel prices in Cuba are reasonable—about one-quarter of the prices in North American cities.

Prices for meals at hotels which cater exclusively to foreigners are slightly less than prices at hotel restaurants in Canada. The government recently established a dual price structure at other tourist facilities—one for foreign and one for Cuban tourists.

A few Canadian tourists do go to Cuba each month during the winter but considerable advance preparation is necessary. The shortest route to Havana by air is via Mexico City and advance hotel reservations are needed. After arriving in Havana, reservations must also be made if the visitor wants to eat at a restaurant away from his hotel or travel to another part of Cuba.

## Full-Blown Ruckus

(Victoria Colonist)

Now it is Stanford that is stealing Berkeley thunder in controversial issues. Far-out people with far-out ideas seem to grow bold in the California sun and the latest to germinate what is blossoming into a full-blown ruckus is the Nobel prize winner, Dr. William Shockley, co-inventor of the amazing transistor.

Abandoning the field of science in which he excels, Dr. Shockley has plunged head-long into the science of genetics with a theory he calls "dysgenics" which has the blood of racism nearing boiling point.

He defines "dysgenics" as meaning "retrogressive evolution through the disproportionate reproduction of the genetically disadvantaged." In simpler terms, he's saying that the quality of the human species is deteriorating because blacks who already have lower intelligence quotients than whites, are breeding faster.

The transistor expert has proposed, as what he calls a "thinking exercise," that people with a low IQ should be paid by the government to be sterilized. He argues that the government would save money by not having to support the children of such people with welfare assistance.

Certainly his theory is thought-provoking, but some facts are missing which rule it out of the lecture theatre where Dr. Shockley would take it. In attempting to do so, he is asking for nothing but trouble. And he is getting it. Stanford authorities are showing resistance and groups of stu-

dents have organized successful disruptions of his classes, burning him in effigy on one occasion. Students for a Democratic Society, a national group which was once a major radical force, has firing sights set on him.

On the other hand, Dr. Shockley has supporters in other "higher and finer" places. Professors Arthur Jensen at Berkeley and Richard Herrnstein at Harvard hold with his belief that welfare aid programs, by encouraging selective "down-breeding" will produce tragic results in that "the consequences may be a form of genetic enslavement that will provoke extremes of racism with agony for all citizens."

They aren't admitting that extremes already have been reached, and something is being done about racism; slow as it might be, progress is being made toward equality.

And most important is that "down-breeding" basis to the Shockley theory. Scientists actually working in genetics claim it is not possible to reach any conclusions on the role of genetics in determining the intelligence quotient until the social and physical environment in which black people are raised becomes comparable with the environment in which most whites are raised.

This position is taken by the entire faculty of the department of genetics at Stanford's medical school in denouncing the theory of "dysgenics."

Dr. Shockley should plug back into his transistors.

## BYGONE DAYS

(From Courier Files)

### 10 YEARS AGO

April 1962

Charles Heathman, who was twice arrested and tried in Vernon on a charge of murdering a ten year old boy, declared to a Vancouver Star reporter that he did kill the boy. He was twice sentenced to hang for the crime but eventually set free by the B.C. Court of Appeal.

### 20 YEARS AGO

April 1952

W. A. C. Bennett was named the Social Credit candidate for South Okanagan, defeating Andrew Ritchie, reeve of Glenora, who was nominated by John Clark. After the voting Mr. Bennett was presented with a new broom by Mrs. Bartier, as a symbol in the South Okanagan contest.

### 30 YEARS AGO

April 1942

Two thousand, two hundred men, women and children spent two hours viewing Canada's army train at the C.N.R. station. A steady stream of citizens passed through the cars, viewing the exhibition of service equipment, from Mills bombs to tanks. Sixty officers and men composed the staff of the train.

### 40 YEARS AGO

April 1932

Big news from the Kelowna Oil Well No. 1—oil shows up strongly in the bore. Petroleum of the best type, namely paraffin base, has been making its appearance in increasing quantities during the last 35 feet of drilling. The bore passed the 2500 foot level today, and continues in marine limestone.

### 50 YEARS AGO

April 1922

Two dead, seven wounded, was the toll of last night's fighting in the town of Mullingar, Ireland. Troops of the Free State gained control of the town following severe fighting, and captured 25 prisoners, a number of rifles and much ammunition.

### 60 YEARS AGO

April 1912

The Kelowna Boy Scouts gave their first entertainment in the Opera House, and showed a surprising rate of progress under the instruction of Mr. V. R. Gilmore. There are six patrols of the leaders are W. Duggan, W. Fletcher, Albert Curtis, D. McMillan, George Carr, and Clarence Jones. H. T. Boyd provided piano accompaniment to the physical drills and songs.

## TODAY in HISTORY

April 21, 1972

Gen. Sir Frederick Dobson Middleton was held up on his advance on Luis Riel during the Second Riel Rebellion 87 years ago today—in 1885—when he met a force of Metis at Fish Creek, Sask. The engagement on the South Saskatchewan River was only a temporary check to his advance and on May 12 he defeated Riel's main force at Batoche and Riel was captured a few days later.

1951—United States forces in Germany were armed with six atomic cannons.

1953—Sir Winston Churchill became a Knight of the Order of the Garter.

1956—The Red River, which began rising at Winnipeg April 21, flooded most of Emerson, Minn.

1919—Canada's railway ended in Britain: it was later resumed until 1933.

1898—War was declared against the United States by Spain.

## CANADA'S STORY

### Princess Pats Heroes In Korea

By BOB BOWMAN

According to the official record, the marching song of the Princess Patricia's Canadian Light Infantry is a melody of Has Anyone Seen the Colonel? Tipperary, and Mademoiselle from Armentieres.

However, anyone who has been close to the Princess Pats knows that their favorite song is Ricky-Dam-Do, about the emblem that was made for them by Princess Patricia herself.

Canada's famous permanent force regiment was formed in Ottawa Aug. 10, 1914, of men who had already seen military service. It was the first regiment to go overseas in the First World War and landed in France Dec. 21, 1914, as part of the British 27th Division. Later it joined the Canadian Corps and three of its members won the Victoria Cross: Lieut. Hugh McKenzie, Sgt. G. H. Mullin and Sgt. Robert Spall.

The Princess Pats were put on active service basic Sept. 1, 1939, for the Second World War. They were in action in Sicily, Italy, and Northwest Europe and won many decorations.

The Princess Pats were in action again in the Korean War and arrived at Pusan Dec. 18, 1950. On April 24, 1951, at Ka-

## Winfield Hospital Auxiliary Buys Wheelchair, Patient Aid

WINFIELD (Special) — The April meeting of the Winfield Hospital Auxiliary was held in the Centennial room of the Winfield Memorial Hall with 21 members in attendance.

A wheelchair and portable patient helped have been purchased by the auxiliary for use by area residents. The wheelchair can be borrowed by contacting either Mrs. J. Dehnke, Mrs. Frank Wilson or Mrs. Jim Campbell. A refundable down payment is required. The portable patient helper is currently out on loan.

President, Mrs. Jake Sallenbach, reminded the members that the 1972 hospital auxiliary regional conference will be held in Summerland April 24. Delegates, Mrs. Sallenbach and Mrs. Michael Lingenfelter will attend. The Winfield auxiliary is planning to set up a display at this conference.

The Spring Red Cross Blood Donors Clinic will be held at the Winfield Memorial Hall on May 9 from 1:30 p.m. to 4:30 p.m. and from 6:30 p.m. to 8 p.m. The Oyama Legion is donating a trophy to the organization whose members donate the most pints of blood. This will be done on a percentage basis of eligible donors. Hospital auxiliary volunteers working at the clinic will be as follows:

Afternoon shift: Recovery Room, Mrs. David Rayfield, Mrs. Margaret Teel and Mrs. Trudy Wharton; registration, Mrs. Ken Tieszen and Mrs. Bob Henderson; coffee, Mrs. Michael Lingenfelter, Mrs. A. Roundhill; recorder, Mrs. Hugh Brown; juice, Mrs. Doug Corbett.

Evening shift: Recovery room, Mrs. Sigh Kokayashi, Mrs. Laura Walker, Mrs. John Dehnke, Mrs. John Hein and Mrs. O. L. Kleppe; coffee, Mrs. Len Michalkow and Mrs. Frank Wilson; recording, Mrs. Ed Galigan; registration, Mrs. Jim Campbell and Mrs. Graham Campbell; juice, Mrs. John Fiwchuk.

A colorful array of prizes and crafts to be used at the annual Hospital Auxiliary Spring Fair were on display. The fair will be held in the Winfield Hall on May 13, beginning at 2 p.m. Any organization or resident

**BEST FUEL**  
Up to the mid-1800s, the best lighting fuel was sperm whale oil.

### A PUBLIC STATEMENT by Mir

"It is our belief that Mir liquid detergent is one of the finest and most effective products you can get for the price. Ours is an extremely low profit, high volume brand. In spite of little advertising Mir has usually been Canada's biggest selling brand for over ten years. Women love it for its effectiveness, pleasing odor and particularly for its price. Of course, there are other excellent brands. But, we suggest you try our Mir and find out just why it's a bestseller."

Yours truly,  
MYRIAD  
DETERGENTS INC.

### THEY'RE READY TO GO

Good weather has brought the ball teams out everywhere. Members of Division 6, Rutland Juvenile Soccer Association, paused before their first tangle Saturday morning against Winfield.

From left, front, Ralph Morrison, Robin Ottenbreit, Todd Buchanan, Alex Draper, Peter Thompson; second row, Michael Shell, David Gaul, Tim

Dawes, Craig Bakala, Kelly Murphy, Larry March, Gerald Lenarcic; rear, assistant coach, Ted Dawes, sponsor Orest Bakala. Coach Fred

March met the team at Winfield. Some of the smaller boys found their sweaters much too big for them.

### MUSICALLY SPEAKING

## A Second Look At Oklahoma!

By BETHEL STEELE

A small reprise for Oklahoma! I attended again Friday evening but for the first act only. I wanted to hear Curly sing Oh, What a Beautiful Morning and the Surrey With The Fringe on Top, once more. He was still in full voice, gorgeously rendered, and he was performing his songs with a bit more movement and meaning. For the uninitiated . . . to perform a song as well as sing it introduces meaningful action to the words. That is why musical theatre demands that a singer act as well. There can be no more of just standing and singing the song and then when finished go on with the acting out of the story. At the same time a good actor may get away with just performing a song without actually giving voice. It's all very involved but is part of what we call total theatre.

Curly looked the part, but why couldn't he smile once in a while? He was much too serious all the time. He could take a leaf from Ado Annie, and by the way, Gloria's Ado Annie is the perfect example of a song superbly performed as well as sung.

I liked Will Parker Friday night. He had at last managed to contact the audience and was really communicating. Laurey was in fine voice but still a bit stiff. She was performing her songs to better advantage but not participating enough in the other characters' action.

I sat at the back Friday and saw the Dream Ballet to better advantage with much more perspective. With local male dancers acquiring more expertise as time goes on, the ballets, wherever male dancers are needed, are more polished with the choreography more advanced than in the past. For the Dream Ballet, Dr. Lloyd was able to follow the Agnes de Milles choreography. Michael Meakin as a professional was a great asset. Friday Regina Bittner had lost her nervousness and was the lovely young and beautiful untouched Laurey. Her mime was superb.

Earlier, Friday I attended Dr. Knox Secondary to hear the Naden Band perform for some five hundred junior secondary music students. In the interim since Tuesday I had forgotten how badly out of tune the Oklahoma orchestra sounded. After hearing the Naden Band so beautifully tuned, the music at night was a shock to my ears. What a pity when the source of a fine combo was right there all the time . . . the bass, the percussion, Brock Lupton's clarinet and the superb piano. A good small is preferable to a large awful.

Dr. Lloyd wishes it understood by the public, "that all money donated over the years by KMP, KTP and KLT is used as bursaries for senior students to attend the Banff School of Fine Arts. And is not, as quoted on the Oklahoma program, given to the Canadian School of Ballet."

The Naden Band was a joy, fine band music superbly played. The music ranged from Mozart to rock. Yes, rock, and I stayed and because the ensemble was so beautifully in tune it did not hurt these poor old ears.

Naden knows how to entertain junior secondary music students and I am certain many of these present Friday morning will be encouraged to go further, more seriously, with their music studies.

As a fine example as to what can happen our own, Stewart Dawson, son of Scotty Dawson is a member of the band and is now playing the flute. He joined the band six years ago after two years of training at the band school. As the master of ceremonies stated in his closing remarks, "If you young people have any idea you might want to join an organization such as ours our advice to you is to practice, practice."

The band is currently touring the province before leaving on a tour of California, New Zealand and Australia. School District 23 is grateful for the largess of the Canadian Forces command. Such listening is necessary if our students are ever going to know what a good performance represents. How else can they broaden their horizons?

## Rutland KDRS Branch Plans To Take A Summer Breather

RUTLAND (Staff)—The local branch of Kelowna and District Retirement Services will cease most activity for the summer months. This was decided Sunday afternoon when a group of senior citizens met in the Centennial Hall. Visits will continue to two area rest homes, and a meeting will be held in the fall to discuss the future of the group.

"We had quite a strong group here at one time," said Mrs. J. A. Rigate of Kelowna, KDRS executive director. "But people

have got other things to do, so all but visits to the rest homes were dropped. With the community growing the way it is, we hope the branch can resume its activity."

## Wharves, Softball And Rentals Discussed By Rec. Commission

PEACHLAND (Special)—Wharves on the beach, softball and the structure of ball rentals were all matters dealt with at a special meeting of the Peachland Parks and Recreation Commission last week.

A full discussion was held on regulating wharves on municipal beaches, and the commission drew up a brief for presentation to municipal council at their next council meeting. The four-part motion was read and passed unanimously by the commission.

After much discussion it was decided that owing to a lack of response and poor turnout at the April 12 meeting on family softball, there will be no Parks and Recreation - sponsored softball

this season. Though members came to this decision reluctantly, softball, it was felt, must have a large number of parents willing to help to be a success. It was reported the hardball group are off to a good start, with these boys playing regularly.

The park advisory committee has recommended that work on the installation of a water system on Trepanier Creek Park be started immediately. The meeting authorized this committee to go ahead.

E. W. Lawby requested information as to hall rentals for use of the Community Hall. He asked why a community organization, such as the Peachland Chamber of Commerce, should be charged for a dinner meeting. Chairman Don Wilson explained that all organizations pay hall rent if they are not sponsored by the Parks and Recreation Commission. He suggested that all waivers for hall rent should be brought up at the commission meeting prior to the event, so that all special dispensations could be dealt with by the membership.

## George Pringle Honor Students

WESTBANK (Special)—Once more the honor roll is out for George Pringle Secondary School, and following are the honor students for the April report period.

Grade 12 students include Clifford Addison, Gary Brookfield, David Duncan, Bill Huva and Elizabeth Jansz, Randy Tanada and Aven Wakefield.

Grade 11 honor roll students are: Gregory Ehlers, Robert Griffin, Bruce Kennedy, Larrie Lund, Janice Martens, John Sherstobloff and Jim Slater.

Grade 10: Dan Ashman, Sally Mae Dobbin, Wendy Fraser, Angie Genovesse, Jan Hewlett, John Knapp, Iris Proctor and Garth Walker.

Grade 9: Diane Angus, Brenda Balson, Renata Buerst, Tim Charman, Joe Furman, Linda Gallant, Nirmal Gidda, Debra Grumann, Glen Griffin, Tom Hiebert, Linda Huva, Leslie Miller, Jo-Ann Ramsey, Joanne Tjaden, David Toews, Stefan Toth, Ray Turner and Julia Loan.

Grade 8: Susan Anstruther, Linda Cross, Rosemarie Fiecke, Kathy Fitzpatrick, Mary Gorman, Wendy Grolas, Janice Tjaden, Christyanne Maxson, Heidi Mueller, Kristine Myllykorpi, Karen Ruffelner, Lori Richardson, Debra Schellenberg, Wendy Tanaka, Margaret Valair and Maureen Van Spronsen.

# Nobody else has it. Solid state ignition. See the new 1972 Lawn-Boy line.

The Super CD Series is the first lawn mower to use a complete solid state ignition system. This means no breaker points to wear out. No coil or condenser problems. Instead, you get a remarkable new, one component capacitor discharge system that's trouble-free. And you get more power. With up to four times more plug life. These new solid state ignition models are extra quiet—thanks to a full circle muffler. Best of all, they're built to last for years. Just like our new Deluxe "MAG" Series—with their famous Lawn-Boy engine, the one power unit

that most experts consider to be the finest lawn mower engine in the world. (It's got only 3 moving parts—fewer parts to wear). Our Deluxe "MAG" models also come with clog-free grasscatchers. And feature whisper-quiet operation as well. See all 14 new 1972 Lawn-Boy's at your nearest dealer. Choose the model you need for your lawn. We've got push, self-propelled and riders. Whichever one you buy—years from now you'll know it was worth it.

A bargain  
for years.  
Lawn-Boy.

STAMP COMMITTEE Con- ed honors with members of Oatman on the left and Mrs. venger, Beatrice Parker, shar- her committee, Mrs. Wilma Oatman on the left and Mrs. H. R. Greer, right. (Courier Photo)

## Star 'Stamp Lady' Honored By Eastern Star Members

WESTBANK (Special) — April is cancer month in British Columbia and at the regular meeting of Kelowna Chapter No. 62 Order of the Eastern Star, worthy Matron, Mrs. Alice Davis, took this opportunity to honor the Canceled Stamp Committee Conventor, Beatrice Parker and her assistants, Mrs. F. H. Bebb and Mrs. Wilma Oatman. A special addendum with verses composed by Mrs. W. R. Hurst, secretary of the Chapter, and a corsage of stamps artistically put together by Mrs. A. H. McDermid; a bouquet of carnations and a special sheet of stamps made up by Jack Ritch, philatelist, were the rewards to an ardent worker, Miss Parker, the Stars Stamp Lady.

**CANCER PROJECT**  
In 1954 the idea was suggested that the members of the Order of the Eastern Star throughout British Columbia collect and sell cancelled stamps with the money to go towards the Cancer Project. Kelowna Chapter began its project some 15 years ago with Mrs. A. Raybould as convener.

When she moved to White Rock in 1962, the entire chapter became a committee with Beatrice Parker as convener with Mrs. F. H. Bebb and Mrs. Wilma Oatman as assistants. The annual sale of cancelled stamps for the Kelowna Chapter has steadily progressed and for the year just ended the sum of \$263 was realized, making their grand total \$1,770. The stamps are sold to various buyers in British Columbia and as far away as Kindersley, Sask. These same three ladies are on the membership committee and are busy collecting Super Valu slips and Campbell's soup labels. These slips and labels would be most welcome and can be sent to Box 335, Kelowna, or left at Dyck's Drugs on Bernard Avenue. Proceeds from these efforts are also channelled into Cancer research.

Mrs. H. W. Fowlow is in charge of Nabob and Blue Ribbon Coupons; proceeds help out on such things as Elizabeth Bentley Scholarships and Estari which is Eastern Star Training

Awards for religious leadership. **DRESSING STATION**  
The Cancer Dressing station workers under the conveners and especially Mrs. R. J. Buchanan are to be commended for the many hours of work they give for this wonderful work they do. There were 2,400 24-inch gauze dressings shipped in December and other dressings and eight patients served locally and seven at this time. These dressings are all given free to cancer patients. The Westbank Stars have their own dressing meetings in each other's homes. Mrs. Woodrow Truitt was convener for many years and Mrs. William C. Mackay is the present convener. At the moment there are many workers canvassing in the cancer campaign who are members of the Eastern Star. Mrs. H. Kinzi has the task of collecting old cotton goods. The sale of these items after they have been made ready, helps the members purchase material for the cancer dressing station.

## Literature And Art Programs Studied By Alpha Epsilon

April was another busy month for Alpha Epsilon. The chapter assisted in serving at the Okanagan Neurological Association general meeting on April 17 and helped usher at the recent production of "Oklahoma." Lorna Anthony, ways and means chairman, reported that just over \$20 had been raised at the bingo social held in March. The money will be set aside for the wheelchair to be purchased for Orchard Park.

Mrs. R. L. Trudeau, Mrs. J. H. Leckey and Mrs. G. B. Ackerman hosted surprise dinners in April and last minute plans were discussed for the Founders' Day celebrations to be held in Vernon on April 27. Get well wishes were sent to Mrs. D. R. Foster who is ill in Vancouver General Hospital. The cultural program for April concerned literature and art. Mrs. W. M. McCutcheon discussed mythology explain-

ing the world and man's place in it. They were directly related to religion and were taken very seriously. Carole also stated that, even now, in some backward areas, myths are still taken quite seriously. She said that some myths can be traced back to 5,000 B.C. with Norse, Greek and Roman myths the most familiar in our culture. The Romans took Greek myths, changing deities' names and some details to suit themselves. Today, myths have a great influence upon our art, music, dances and literature and often live on in our affections as in the case of leprechaun folklore.

Mrs. M. C. West chose portraiture for her topic. She supplied oil pastels, paper and books of helpful hints for everyone, along with the instructions that each should sketch someone else's portrait. At the end of an interesting and sometimes hilarious 20 minutes, everyone tried to guess which sketch represented which woman. It was generally agreed that Mrs. J. H. Leckey had the best likeness with her sketch of Mrs. Ackerman.

On May 10, the meeting will begin at the National Film Board theatre at 7:45 a.m. and will end with the installation of officers at the home of Mrs. V. J. H. Janz. The meeting on May 24 will take the form of a costume social to entertain the other sorority chapters. It will be held at Mrs. Charles Mendenhall's new home.

## St. Andrew's ACW Sets Date For Annual Flower Show, June 21

The April meeting of the Anglican Church Women of St. Andrew's, Okanagan Mission, was held at the home of Mrs. D. C. MacDonald, Collett Road, with 17 members present. Reports were given. Trill had been sorted, and donations made for the Evening Guild

rummage sale held at the Community Hall. The craft group meeting in the Parish Hall on Thursdays at 1:30 would welcome more workers, and asked members to save the old light bulbs with the long necks and the square styro foam trays.

Mrs. Vincent Blaskovich introduced the speaker, Rev. P. B. Black of the Roman Catholic Church of the Immaculate Conception who announced there would be a youth hostel run at St. Joseph's Hall again this year. He appealed for dishes and mattresses.

Mod Mothers' group will meet next on April 27 at the home of Mrs. Russell Ferguson, Lakeshore Road, at 9:30 p.m. Guest speaker will be Rev. John Davidson.

Partial plans for the annual flower show were made. This will be held at the Eldorado Arms Hotel, on June 21. Final arrangements for this show will be made at the next meeting of the ACW which will be held at the home of Mrs. Howard Carruthers, Walnut Street, on May 18.

## CWL Members To Attend

The members of the Catholic Women's League of Immaculate Conception Roman Catholic Church will attend mass together at 9:15 a.m. on April 28 in observance of Our Lady of Good Counsel Day. Following the service they will meet together in a coffee hour in the library at St. Joseph's Hall.

## Engagement Announced

Mr. and Mrs. Henry Schlerbeck of Kelowna are pleased to announce the engagement of their daughter, Annette Christine to Peter Kalls, son of Mr. and Mrs. Peter Kalls of Kelowna. The wedding will take place on Oct. 28.

# Women

WOMEN'S EDITOR, MRS. H. R. GREER  
PAGE 6 KELOWNA DAILY COURIER, MON., APRIL 24, 1972

## HITHER and YON

Mr. and Mrs. Hector Furvey are happy to be back home in their lovely Lakeview Heights home after spending the winter months in Hawaii and later in Victoria.

Mrs. Ernest Smalley of Florenceville, N.B., was a special out-of-town visitor in Kelowna this past weekend, and attended the presentation of Oklahoma by Kelowna Theatre Players.

Many out of towners were among the many guests who enjoyed the hospitality of Mr. and Mrs. Jack Hambleton during a preview showing of the paintings and drawings of Raymond Chow of Vancouver. Not only did they enjoy his exhibition of paintings and drawings of England, Holland and France, but they were delighted with his artistic ability on the piano keyboard. Mr. Chow recently returned from a year in London, England, where he held a successful exhibition of his work at Canada House. He likes to draw old buildings and young girls.

Among the many out-of-towners who attended the final performance of Kelowna Theatre Players' Oklahoma was Mark Rose, MP for Fraser Valley and

Mrs. Rose. Mr. Rose directed the first musical production in Kelowna 15 years ago, which was Oklahoma, also. He commented 'on stage' after the final curtain on the improved quality of the production and mentioned how pleased he was to have had a small part in starting this trend. He and Mrs. Rose also attended the special wind-up back-stage party Saturday night.

Long suffering spouses of the cast and production crews of Oklahoma were guests at the back stage, after-the-play party Saturday night at the Kelowna Community Theatre. Harold Pettman, producer-director of the play was presented with a Stetson hat and Howard Young the choral director was presented with a western belt and tie. A beautiful bouquet was presented to Mrs. Pauline Markwood, pianist, who also provided rehearsal music faithfully. Adding to the relaxed fun spirit was a skit, during which three of the male characters dressed as ballerinas, performed for choreographer Dr. Gweneth Lloyd, hopefully to gain scholarships from the Canadian School of Ballet's summer school at Banff.

## After A Year On The High Seas Couple Will Go Separate Ways

BRISBANE, Australia (AP) — After a year alone together rowing across the Pacific, John Fairfax, 33, and Sylvia Cook, 32, have no marriage plans.

"He would make an appalling husband," said Miss Cook. "Who wants a husband who goes away on jaunts like this?"

But they got along famously on the 8,000-mile journey from San Francisco, through four cyclones and a shark attack.

"Why not?" said Fairfax. "We are civilized and sensible."

"And we don't talk very much," Miss Cook chipped in. The couple arrived at Australia's Hayman Island recently in their 35-foot Britannia II. The first persons known to have rowed a boat across the Pacific to Australia. They then flew to Brisbane.

Both are British. Fairfax rowed alone across the Atlantic in six months in 1969, and decided he'd like to try the Pacific—but with a companion.

He placed an advertisement in a British newspaper and Miss Cook, then a secretary at a London art gallery, responded. All the rowing she had ever done was in London's River Thames—and she can't swim.

**SHINY NO LONGER**  
Their \$5,000 Britannia II, painted a bright orange when she slipped under the Golden Gate Bridge in San Francisco last April 26, was crusted with barnacles when she put in at Hayman Island.

Fairfax and Miss Cook barely could walk. "They were wobbly on their legs and a bit weatherworn," said Andre Meestracel, manager of the Hayman Island Hotel.

Island vacationers cheered the couple as they came ashore. "Good on yer, mate," one Aussie called out. "Bloody great show."

"We would like showers, some breakfast—and I'd like a can of beer," Fairfax told his greeters.

They were deeply tanned and their hands were covered with calluses. Fairfax wore a bandage on one arm covering a gash caused by a shark bite last month.

"It was a miserable journey," Fairfax remarked. "I don't care if I never touch another oar."

"I have another journey in mind, but it won't involve any rowing."

He and Miss Cook appeared relaxed and cheerful. **NOT TO WORRY**  
"No one need have worried about us," Fairfax said. "At no time did we think the jour-

ney would come to an untimely end. We are lucky people and experts on survival.

"I do it for kicks, not for money. Some people turn to drugs for thrills. . . I turn to adventure for mine. That is what I will be until I die—an adventurer."

Fairfax said the shark attack occurred March 21. "I couldn't do any further rowing. Sylvia rowed us half way across the Coral Sea which is pretty good going for anyone."

apart from being good with the oar she was an excellent nurse."

Miss Cook said: "When the shark attacked, I nearly fainted at the sight of blood. Then I thought that if he was still all right it would be stupid of me to go and do that."

Until the shark attack, they had taken spells of rowing—Fairfax rowing for 10 hours a day and Miss Cook for five.

Fairfax said they spent some time spear fishing and reading.

"Mainly you feel so tired you just sit in the boat and look at the sea."

Fairfax said: "The worst weather of our 361-day journey from San Francisco was about two weeks before our Hayman Island landfall."

"The waves were huge, we strapped ourselves in with leather harnesses."

**A FINE CRAFT**  
Britannia II behaved magnificently. I have nothing but praise for her."

The couple, whose radio had broken down soon after leaving the Gilbert and Ellice Islands, did not know they were only 200 miles from the centre of Cyclone Emily which lashed through the area.

Hayman Island was the first land they had sighted since leaving the Gilbert and Ellice Islands Feb. 10.

A doctor examined both Fairfax and Miss Cook. He found she had nursed his shark wound well and said both seemed fit.

**NO EYELIDS**  
Fishers have no eyelids.

## FAIR TIME NEARING

Good used clothing for children, from infants' sizes to size 14, will be one of the popular booths at the upcoming Blossom Time Fair, May 6, sponsored by the Kelowna Hospital Auxiliary. Donations for this booth will be welcomed by convener, Mrs. R. M. Turk, at 762-0685. There is also a demand for brownie and guide uniforms. Other donations for the fair will be

welcomed by the auxiliary who sponsor the fair as one of their main fund raising projects. Toys and games contact is Mrs. Richard Longman at 762-2726 and Mrs. John Dyck is in charge of the white elephant booth and can be contacted at 763-2809 for donations. Other booth conveners seeking donations for the event are, baking and rhubarb, Mrs. Victor Pash-

nik, 763-3133; candy, Mrs. Beryl Brownlee, 764-4492; plants, Mrs. Terry Scaife, 764-4353. Seen here posing in some of the 'good as new' donations already received are: left to right, Barbara Turk, Echo Enns, Nancy Eldridge, Paul Moxness and Jacqueline Jansen, who is not too sure she wants to be a model. (Courier Photo)

## Mrs. R. J. Bailey Heads University Women's Club

The University Women's club of Kelowna held its annual meeting at the home of Mrs. R. D. Knox on Bluebird Rd.

A new written constitution was presented by Mrs. E. H. Birdsall and approved by the meeting with minor additions.

Three members were elected to fill the following offices: president - Mrs. R. J. Bailey; vice president - Mrs. L. S. Ashley; treasurer - Mrs. E. Metke. Other officers are to be filled by the present incumbents for one year.

The chairman of the standing committees presented their

annual reports, and the retiring president, Mrs. E. R. Pelly summed up the interests and accomplishments of the club during the two years of her presidency.

Mrs. William Wadson was the speaker for the evening. She and her husband spent years, hunting and photographing the wild flowers of the Co-

lumbia River Valley in their native habitat. To her commentary on, where, and when, these flowers may be seen at their best, she added many interesting sidelights on the medicinal and nutritional use that was made of them by the Indians. She made the desert bloom again and the dry lands flourish.

Basic tools of carpentry, the square and the level, are explained by Community Resources Centre instructor, C.

F. Zais during the classes on low cost home repairs and maintenance currently being taught at the centre on First

United Church. Students, left to right, are Bruce Neifer, Bryan Johnson and Joe Lobb, who find there is more to

repairing or building simple structure than just driving a nail.

L.I.P.

## Community Resources Centre Sets 'People Needs' As First Priority

By DOT ANDERSON  
With the growing upsurge in social awareness, there is an escalating concern in both urban and rural areas in regard to the social and economic needs of members comprising the community, not only representative of majority and minority groups, but at the level of the individual.

In Kelowna, one of the most successful attempts to meet these social objectives has been established at the Community Resources Centre where "people needs" have been met through working together toward effective communication, organization and co-operation.

Funded under the Local Incentives Program and co-ordinated by Mrs. Ann Kujundzic, the centre, now entering its third month of operation, has been a nucleus where hundreds of local and rural community residents have shared the experience of a three-fold project.

The three main areas of activity and concern have revolved around: a high nutrition, low-cost meal service and food preparation; a household and automobile service; and a craft workshop designed to meet the creative needs of the individual, develop further skills and provide a greater realization of human potential.

The project has also successfully functioned in bringing people together for social exchange, gossiping together while working or at meetings has often brought common needs and problems to the forefront. Many of the local

visitors, especially senior citizens and mothers of pre-school children, lack transportation and have few chances to meet community neighbors. At the centre, they have enjoyed the companionship of working together with all age groups. Perhaps the concerned and friendly atmosphere may best be summed up by a recent assessment from a "retired citizen, who, after an active day at the centre, was heard to remark: "I only intended to drop in briefly this morning to see what was going on, but I feel as though I've spent the day with friends... and I've learned and discovered so many wonderful new things and ideas."

Centrally located in the city at First United Church, Bernard and Richter, the centre is manned by six additional staff members, equally responsible and capable of their respective duties and under the guidance of Mrs. Kujundzic, prepared to adapt any part of the program so as to function on a person-to-person basis.

Mrs. Nina Aaraj instructs and prepares gourmet cooking on a next-to-nothing basis. Her European background affords new zest to simple and inexpensive menus and her knowledge of the use of foods results to best advantage to the maximization of flavors and nutrition. As the mother of five active school children, she is well equipped to provide new ideas on how to stretch the family food budget. Kitchen demonstrations on bread making, soup making, meat substitute dishes and inexpensive meal planning are conducted at afternoon and evening sessions. Emphasis is placed not only on nutrition but attractive meal preparation combining as much as possible "unprocessed and untreated" ingredients. Noon lunches are served to the public three days a week at minimal cost.

Youthful Linda Barrat, assisting Mrs. Aaraj, contributes her wide knowledge of the value of natural unprocessed foods, meat substitutes and advance information of herb and combined herb cookery.

Recipe sheets are also available to the public as well as information on the purchases of natural foods.

Perhaps the most indispensable member of the staff is Charles Zais, a highly qualified

carpenter with more than 30 years experience in the construction and building trade.

Constantly on request, Mr. Zais has provided scores of community members with advice and assistance on low-cost home repairs and maintenance. As a result of his background and experience in feasibility studies, he is well equipped to advise on proposed home renovations both from an economic and structural viewpoint. In addition to this, he builds and constructs the essential teaching aids in the centre's craft room such as upright weaving looms, inkle looms, rug hooking frames, warping boards, craft tables, display bulletins and countless other items.

Car and truck maintenance and repair is in the capable hands of Joe Lobb, an experienced mechanic who firmly believes in vehicular cost reduction and feels that, other than the purchase of parts or materials, he can share his skills with the community through instruction and assistance.

The centre's most recent staff acquisition, Lynne Garner, in her capacity as public relations officer, is also responsible for records and supplies.

The centre's bright, well-equipped crafts room, in all likelihood, dominates the community scene. The young custodians of this popular area are Sue Morrison and Babs Bremner. Well known to the Kelowna area, their handicrafts have appeared in various local shops and at community art and craft displays. Assisting them on a part-time basis, is Ann MacMillan, local weaver and potter, who for many years has played an active part as a member of the Kelowna Arts Council and given workshop instruction in elementary schools and with organized community groups.

At these daily relaxed teaching or learn-ins, community members learn the skills of weaving, carding, spinning, dyeing, macrame knotting, crochet, sewing, clothing repair, rug hooking, batik, stitchery; and for the less-serious diversion, Friday fun-days enable completion of one-day projects in paper-mache, sand-cast and dipped candles, Gods-eye mobiles, baker's clay jewelry and countless other craft adventures. Visitors, encouraged by the centre's staff, propose new

dimensions; student-teacher roles are frequently reversed; young men and women work side by side with pre-teen students and senior residents in an atmosphere of "people helping people."

To enable mothers of pre-schoolers to share in the community experience without expense of costly baby-sitting, an activity centre for the very young is set within the craft area, complete with building blocks, paints, craft papers and gymnastic toys.

The final measure of success of the centre's objectives may never be definitely established. Since many of the community members have been helped in developing skills, they are anxious to do their part—they want to pass on the help that others have given to them.

And so, the individual who was assisted by Charles Zais in home repairs plans to help a neighbor with similar problems; a mother who learned the art of macrame knotting is teaching her teen-age daughter and her three friends similar skills; a community couple is providing frames and instructions in rug hooking to several handicapped shut-ins; a young parent is supplying duplicates of the centres recipe sheets to visiting relatives and a young man is assisting a friend in automobile tune-up techniques taught to him by the centre's mechanic.

Like some propitious talisman, the self-perpetuating objective is set into timeless motion.

All services at the centre are free... minimal prices are set for craft materials and food preparation ingredients. Mrs. Kujundzic welcomes any inquiries at 2-0445.

## ANN LANDERS

### Bashful Kidney Remedy Is Whistling A Tune

Dear Ann Landers: When I read the letter in your column from the guy with the bashful kidney it made my whole day. It's good to know I'm not the only one in the world with such a kooky problem.

I'd like to help my afflicted buddies by sharing a gimmick that helped me cope with the situation. It was suggested by my high-school football coach. The idea is to get your mind off yourself and on to something completely unrelated. The way to do it is to whistle your favorite tune. Mine was Lulu's Back in Town.

A few years ago I was in a large office building in a strange city. I started out for the men's room and couldn't find it. I did go by a ladies' room, however, and seeing as how my kidneys were killing me I decided to chance it. I ducked into one of the alcoves, which, of course, had a door on it. At that very moment I heard another person come in. I started to whistle Lulu's Back in Town. The voice next to me yelled, "I hate that tune!" So I immediately switched to Way Down Upon the Swanee River. She shouted, "That's better." So Swannee has been my tune ever since.

If you print my letter please don't use my name or initials. I'd never hear the end of it. Thanks, Ann.—Bashful Kidney in Minneapolis

Dear Bashful Kid: Swannee River is somehow a more appropriate selection. Thanks for your letter.

Dear Ann Landers: My son is 58 years old. He had a stroke last year and is partially crippled. His insurance and early retirement money take good care of him so he has no financial problem.

The woman he wants to marry is 43 years of age. She has four children. One child is still at home with her, a 15-year-old boy.

I am against this marriage but I cannot persuade my son I am right. I don't believe it would be fair to a 43-year-old woman to marry a man who can't give her the physical pleasures she is entitled to. I have not discussed this with him because it is not a subject for a mother and a son. But it bothers me a great deal.

The woman is very cool toward me because she knows I am against the marriage. They seem to get along fine together but I'm afraid after they are married it will be different.

THE SHOE BOX

Shoppers Village, Rutland

story. What do you think?—Louisiana Reader

Dear Lou: I think a 58-year-old man does not need his mother's permission to get married. Also, you don't know what their personal life is like and it's none of your business. It might be better than you think. You should be pleased that your son has found a woman he wants to marry and who wants to marry him. Stop trying to undermine the situation and wish them luck.

Dear Ann Landers: I'm a 20-year-old college student and I can't believe the things people write to you about. The letters I read in the papers seem so absurd; for example, the 14-year-old girl who fell in love with the bus driver, and all those idiots who fall for married men.

Do you believe they are real? My hunch is that they are from a bunch of clowns who are trying to get their letters in the paper. Level with me, Ann. Don't you think the people who write to you are a little weird?—G.M.G. in Kalamazoo

Dear G: The other guy's problem sounds a little weird until something similar happens to you. If you haven't seen yourself in the column yet, keep reading. You will. Suddenly other people's problems will seem a lot less nutty.

### TWO-CHILD LIMIT

MONTREAL (CP) — No couple has the right to give birth to more than two children, says Dr. Robert Goodland, a McGill University ecology professor who is setting up a local branch of Zero Population Growth. Those who want more than two should adopt to avoid "overstraining the resources of the country in what essentially comes down to a question of selfishness."

### TOP RUTLAND BOWLERS

The Rutland Five-Pin Bowling Association capped a successful season with an equally successful banquet and award night, and trophies for a number of leagues were presented. Two of the bowlers honored

Don Volk, left, and Jack Murphy, right, join Rudy Runzer, president of the Rutland Five-Pin Bowling Association, for a picture. Volk recorded the first perfect game at the Rutland alleys,

and received a watch for his 150 game. Murphy was the winner of a number of trophies, one for a 1961 triple. The high triple was the top recorded in Western Canada this year.

### NHL Players Would Be Honored To Play Against Soviet Union

TORONTO (CP) — Most National Hockey League stars would be "honored" to play for Canada against Russia in a September hockey series, the president of the NHL Players' Association said Thursday.

Red Berenson of Detroit Red Wings said in a telephone interview from Detroit with The Star that he is certain NHL all-stars will volunteer for the eight-game series.

However, he said, the players would be motivated more from love of their game than national pride.

"I don't feel there'll be much patriotism involved."

"We represent the best hockey in the world, but it's spread out now between Canada and the States. It will be the NHL versus international hockey."

Berenson, whose association represents all NHL players, said he was glad to hear NHL president Clarence Campbell has sanctioned the use of NHL stars against the Russians. Campbell has said players from U.S.-based teams will want to participate.

Berenson said he doubts if the NHL stars can sweep all eight games because "there's always

a mental letdown" after a few games. He did not comment on Wednesday's warning by Weston Adams Jr., president of Boston Bruins, that stars like Bobby Orr and Phil Esposito would not be available because of the danger of injuries.

Allan Eagleson, Orr's legal adviser, said the Bruin defence-man, will definitely play for Canada.

### Kelowna Teams Win In Soccer

Kelowna Kickers won their second straight game after opening the season with a loss, and Kelowna Monte Carlos won their first game of the season in three outings Sunday in Kelowna in Okanagan Valley Soccer League action.

Kickers, who dropped a 2-1 decision to Vernon Heidelberg in the opener then drubbed Penitence 5-1, blanked Revelstoke Rangers 6-0 in their third game. Monte Carlos nipped Penitence 2-1, after losing their first two games 1-0 to Vernon United SC and 3-2 to Vernon Heidelberg.

Three players shared the Kickers' scoring, with John Haar, Tony Ambrosio and Fred Molzahn rapping two goals each. Kickers utilized sharp passing to dominate the game and allow goaltender Walt Stutz to record the shutout.

Roddy Walker scored twice in the first half to give Monte Carlos a strong lead but Molsons came back at the 65-minute mark with a goal by Ludwig Martins to make it close. Carlos' goalie Oscar Kempf came up with a number of outstanding saves to preserve the win for Kelowna as Molsons pressed for the equalizer.

### Track Club Goes Indoors

The Okanagan Track and Field Club are preparing for another season, and start their indoor sessions Thursday at the Kelowna Secondary School at 7:30 p.m. with a series of films on sports.

The films, shown in rooms 123-125, will be on a half century of the National Hockey League, Highlights of the British Press Review 1959 and B.A.A.C. Basketball Championships 1969.

A silver collection will be taken to further the activities of the track club.

### HOME ON THE PARK

VANCOUVER (CP) — Gordon and Dorothy DeWitt live on a 7½-acre playground, complete with wading pool, and a soccer and rugby field. They are among the 67 caretakers in city parks, who live in quarters provided by the park board in return for their services. DeWitt keeps the playing fields free of litter. "It's a good retired life," he says, "especially if you enjoy fair health and people."

# Ranger Tenacity Just Too Much Hawks Humiliated In Four Straight

NEW YORK (CP) — New York Rangers, showing a tenacity that could not be denied, humiliated Chicago Black Hawks 6-2 Sunday night to enter the Stanley Cup hockey finals for the first time in 22 years.

The Rangers' first-ever four-game playoff sweep came on two goals by veteran Bobby Rousseau and one each by Phil Goyette, Rod Gilbert, Vic Hadfield and young Gene Carr. But the victory was essentially a team effort, as was the case all through the Rangers' 4-2 quarter-final victory over Montreal Canadiens and three arrow wins over the Black Hawks prior to Sunday.

Bobby Hull, 33-year-old long-time ace of the Chicago team, worked his heart out in an effort to prevent a Ranger sweep, and scored the first goal of the game unassisted while his team was shorthanded. The second Chicago goal, by Pat Stapleton, also was unassisted. It came on a second-period power play and narrowed the New York margin to 3-2. From then on it was all downhill for Chicago.

The Rangers expect to meet Boston Bruins in the final, but don't know when. The Bruins have swamped St. Louis Blues three times in a row and played them again Tuesday night in the

other best-of-seven semi-final. There was speculation here that the best-of-seven final might not start until Sunday afternoon in Boston, even if the Bruins complete a sweep over the Blues.

### THE CAT PURS AGAIN

"We got a tremendous effort from everyone," said Emile Francis, the Ranger general manager coach, who must be tempted to put the statement on tape for regular use after games involving this fired-up Ranger team. He added: "A lot of guys there would not be denied. I just can't say enough about this team."

Coach Billy Reay of the Black Hawks was a gracious loser. "I didn't think the Rangers could beat this club four straight but they got stronger as they went on," he said in the dressing room. "Their defence was much better than ours and physically they seemed stronger than us."

Stan Mikita and Jim Pappin of the Hawks and Gary Doak of the Rangers were in the penalty box when Bobby Hull opened the scoring at 5:37. He swiped the puck from Rod Seiling at the Black Hawk blue-line and beat Gilles Villemure with a backhand shot.

Goyette got that one back 12 seconds later, with Pappin still off, beating Tony Esposito

cleanly from the faceoff circle to his right after a passing play with Rousseau and Brad Park.

### SET UP ROUSSEAU

Rousseau's first goal came at 15:32 of the initial period, when he was set up by Gilbert and Hadfield 10 feet from the net. Gilbert's power-play goal at 4:37 of the second period came with Doug Jarrett serving an interference penalty. Esposito stopped a drive from Goyette on a semi-breakaway and Gilbert was there to ram home the rebound.

Seiling, among the Rangers' best defenders this year, was victimized again on the second Black Hawk goal, which came on a power play at 12:10 of the second period while Doak served time for interfering with Chico Maki. Trying to clear from his own zone, Seiling put the puck on the stick of Stapleton, who zoomed in from the blue line and beat Villemure, playing his third consecutive game in the Ranger nets since Ed Giacomin twisted a knee in the Chicago opener.

Hadfield chalked up his sixth goal of the playoffs when he swooped in to gobble up the rebound off Gilbert's blast at 16:25.

The biggest ovation from the capacity Madison Square Garden crowd—except for the cheering at the final buzzer—came at 18:22 of the second period for Carr, the nervous rookie acquired from St. Louis. Carr scored his first playoff goal on a passing play with line-mates Walt Tkaczuk and Bill Fairbairn, who had another tre-

mendous night as penalty killers.

Rousseau's second goal of the game and his fourth of the playoffs closed out the scoring at 3:40 of the third period. Rousseau swept in fast to take a perfectly-timed pass from Hadfield.

Not only was the series the first ever won by the Rangers in four games, but it was their first-ever series victory over Chicago. The Rangers, who won the last of their three Stanley Cups in 1940, beating Toronto, have not been in a cup final since 1950, when they lost 4-3 in games to Detroit.

Bobby Hull, in the playoffs for the 15th time, had four goals and four assists in the eight games the Black Hawks played against Pittsburgh and New York and moved into third place ahead of Maurice Richard in Stanley Cup scoring totals. Hull has 129 playoff points to 128 for the Rocket.

Hull's points are made up of 62 goals and 61 assists in 116 games. Top playoff point-getter is Jean Beliveau, who retired from Canadiens after they won the cup last spring, with 176 points in 162 games spread over 17 years. Gordie Howe of Detroit, also retired, is second with 158 points in 154 games over 19 seasons.

Gilbert, regaining his form after a late-season neck injury, also had three assists to raise his 1972 playoff total to three. Carr scored his first playoff goal on a passing play with line-mates Walt Tkaczuk and Bill Fairbairn, who had another tre-

"I'm new in this league, sir. Can you tell me which swear words I can get away with and which will get me thrown out?"

### Bruins Waltzing Way To Final Blues An Expansionist Joke

ST. LOUIS (CP) — They're calling it the longest wake in National Hockey League history. And with good reason.

St. Louis Blues are either an expansionist joke or are subjecting loyal fans and Boston Bruins to an overplayed scene from old Roman days when they fed Christians to the lions.

The Blues offered little more than token resistance while being led once again to the slaughter Sunday afternoon, falling 7-2 to the overpowering Bruins.

Following up 6-1 and 10-2 Bruin victories at Boston Garden, it marked the third straight game in the best-of-seven Stanley Cup semi-final that St. Louis suffered through trials and tribulations.

The Blues opened an early 1-0 lead on Mike Murphy's power-play goal at 2:05 and had the heavily-favored Bruins reeling for the first five minutes before Boston recovered for a 3-1 lead going into the second period.

### SAW IT COMING

"We expected them to come out strong," said Boston general manager Milt Schmidt, "but I felt if we could hold them for the first period we'd take them."

However, Schmidt, the one-time Bruins' centre ace of the famed Kraut Line, would not hazard a prediction on the outcome of game No. 4 here Tuesday night, starting at 8 p.m. CST (9 p.m. EST).

If the Bruins win here Tuesday night, they will meet New York Rangers in the Stanley Cup final. The Rangers reached the final by beating Chicago Black Hawks 6-2 Sunday to win their semi-final series in four straight games.

The Blues wilted Sunday in the face of Boston goaltender Ed Johnston's sharp reflexes and the overwhelming Bruin firepower that produced two goals each from John McKenzie and Mike Walton.

Veteran Ed Westfall broke the Blues' offence-minded pattern at 8:40 of the first period. McKenzie added another two minutes later, and Phil Esposito provided the clincher 18 seconds before the period ended with his seventh playoff goal.

### MCDUFFE NO HELP

Blues' rookie goaltender Peter McDuffe provided little relief for St. Louis goaltending problems that has already yielded a near-record 23 goals in three games.

It was no contest in the second period as the Bruins opened a 6-1 lead and traded goals with

the Blues in the final 20 minutes.

Ken Hodge provided the other Boston score while Gary Sabourin notched the second St. Louis goal at 18:15 of the final period.

The Bruins are within three goals of a record 26 scored by Montreal Canadiens in a four-game series with Chicago Black Hawks and the Fred Stanfield.

John Bucyk-McKenzie line is closing fast on the record for most points amassed by a line in playoffs, 52, set by the same trio two years ago in 14 games.

The line picked up five points in Sunday's game, giving them 39 points in eight playoff games this year.

McDuffe, a refugee from St. Louis minor chain with Denver Spurs and who allowed six goals in a four-game Western Hockey League playoff sweep over San Diego Gulls, was pressed into service after a restless night.

He arrived in St. Louis late Saturday night.

Coach Al Arbour was hoping the move would stimulate the Blues whose regular netminding tandem, Jacques Caron and Ernie Wakely, had been shelved in earlier games.

Meanwhile Clarence Campbell, NHL president, said the Blues have subjected themselves to a fine for dressing goalie Jacques Caron as backup to McDuffe.

"There is no way a club can recall a goaltender... except as a move to stimulate the Blues whose regular netminding tandem, Jacques Caron and Ernie Wakely, had been shelved in earlier games."

"The Blues represented Caron as being hurt and we had to acknowledge that he was. But it's hardly conceivable that they would dress a man supposedly hurt. There will be a fine."

### EARLY STUDY

QUEBEC (CP) — All school children in Quebec should begin to study the arts in the first few years of elementary school, says the Quebec Superior Council of Education. The widest possible exposure to music, plastic arts, dancing and dramatics should no longer be considered a luxury for the elite.

### Stanley Cup Game Summaries

## CZECHS TAKE HOCKEY TITLE FROM U.S.S.R.

Jubilant members of the Czechoslovakia ice hockey team embrace Thursday in Prague, after defeating the

Soviet Union team to win the World Ice Hockey crown. In defeating the Russians 3-2 the Czechs ended Russia's nine-

year reign as world hockey champions. The two teams had tied earlier in the series, by a 3-3 score, to set the stage

for the second game of the round robin competition between the two teams. The Russians also had trouble in

their final game, coming from behind to claim a 3-3 tie with Sweden.

## Chipperfield Leads Wheaties Back Into WCHL Contention

By THE CANADIAN PRESS  
Brandon Wheat Kings are back in contention in the semi-finals of the Western Canada Hockey League, thanks largely to Ron Chipperfield.

Chipperfield scored three goals and assisted on another Saturday to lead Brandon to a 6-1 victory, its first in the best-of-seven series, over Regina Pats. On Sunday, he got two more goals including the winner, and one more assist as Brandon beat Regina 5-3 to tie the series 2-2.

The Edmonton Oil Kings-Calgary Centennials series in the league's western division was also tied 2-2 in games after Edmonton rallied Sunday night to edge Calgary 3-2.

Both the Centennials and Edmonton have each won their home games but the next game in the series is scheduled for tonight in Medicine Hat because

no suitable arena is available in Calgary.

Brandon is at Regina tonight in the other series.

**HAVE BIG SECOND**  
Brandon won Saturday in Winnipeg by scoring four unanswered goals in the second period as the pattern of the generally close-checking game changed for a while.

Brian Coates, Glen Mikkelsen and Don McLaughlin joined Chipperfield in the scoring. Clark Gillies was the Regina marksman.

On Sunday in Winnipeg, Chipperfield scored the winner with less than four minutes remaining in the game when he swept around behind the Regina nets and tucked the puck into the corner.

Coates, Bob Murdoch and Grant Farncombe added the others.

Scott Smith led the Regina attack with two goals and Mike Wanchuk scored the other.

In Edmonton, the Oil Kings scored two goals in just over a minute in the third period to come from behind to victory.

Calgary had led Edmonton 2-1 after the first period on goals by Jerry Holland and Brian Walker while Don Kozak tallied for the Oil Kings.

The second period was scoreless and Calgary maintained the lead until 12:02 of the third when Tom Bladen tied the score. John Rogers put Edmonton ahead at 13:08.

## Knicks, Lakers Meeting Again

By THE ASSOCIATED PRESS  
Two years ago Los Angeles Lakers lost the National Basketball Association championship in seven games to the New York Knicks, a team with an injury-ridden but inspiring centre, Willis Reed.

Now, the teams are once again matched in the league's title series but the Lakers won't have to contend with Reed, the Knicks' captain, since he is recovering from early-season surgery.

The Knicks and Lakers both have been pressed in the league's conference finals but each team is going into the championship series at full strength.

Boston Celtics came ready to play the fifth game of their Eastern Conference finals. The Knicks showed up three minutes late.

The Celtics sprinted to a 14-0 lead before Knicks' coach Red Holzman made a few substitutions that got the team on the scoreboard and on their way to a 111-103 victory that put the New Yorkers against the Lakers Wednesday night in Los Angeles.

Los Angeles wrapped up its Western Conference finals Saturday with a 101-100 victory over Milwaukee Bucks, taking the best-of-seven series 4-2.

In the American Basketball Association, the Virginia-New York playoffs resume tonight in New York with the Squires leading the series 2-0. Indiana squared its series with Utah at 2-2 with a 118-108 victory on Saturday. The teams meet again tonight in Salt Lake City.

## Chualo Ready To Meet Ali

TORONTO (CP) — Canadian heavyweight boxing champion George Chualo is doing roadwork in training for his return bout against Muhammad Ali in Vancouver, May 1.

Chualo says he has passed all the tests required by the Canadian Professional Boxing Federation.

"I've had them all—electrocardiogram, electro-encephalogram and x-rays of the spinal column," he said.

The last time they met, in Maple Leaf Gardens six years ago, Ali won a decision after 15 bruising rounds.

Irving Ungerman, Chualo's manager, is not predicting who'll win this bout, "but it will be dirty," he says.

## Mitchell's Second Tour Laurels Come Against Feared Competitor

RANCHO LA COSTA, Calif. (AP) — Bobby Mitchell, who had complained earlier to sports writers that "nobody ever writes about me," beat pro golfer's most-feared competitor in a sudden-death playoff Sunday for the title in the Tournament of Champions.

The 29-year-old Mitchell rolled in a 20-foot putt on the first extra hole and beat heavily-favored Jack Nicklaus for only his second victory in a pro career.

"It's a great feeling," exclaimed Mitchell, who collected \$33,000 from the total purse of \$165,000. "It was a wonderful feeling when I won at Cleveland last year (his first tour triumph). But this was even better because I beat all the champs."

The Tournament of Champions is restricted to players who scored regular pro tour victories in the last 12 months. Nicklaus, who took the Masters and two other titles already this season, was a 4-to-1 favorite to defend his title successfully here.

But the odds went for nothing when Nicklaus pulled his tee shot on the par three 14th—the first playoff hole—into the deep rough and chipped six feet past.

**MITCHELL ON GREEN**  
Mitchell put his tee shot in the green below the pin and made the putt.

Mitchell shot a final-round 70 on the long, tough La Costa Country Club course and tied Nicklaus with a 72-hole total of 280.

"You never like to lose a tournament," Nicklaus said, "figured if I shot 72 I'd win it."

## Four Run Lead Not Enough Astros Rally For Easy Win

By THE ASSOCIATED PRESS  
"I'll take a four-run lead entering the ninth inning anytime," San Francisco Giants manager Charlie Fox said.

The Giants had it Sunday—a 7-3 edge over Houston Astros with three outs to go. But they couldn't get those final three before the Astros got 10 runs.

"I'm not surprised by all the runs Houston is scoring," Fox said after the Astros' 13-7 triumph. "They're the most-improved club in the league. . . . We scored seven runs so it's up to our pitchers to hold 'em."

In Sunday's other National League action, New York Mets swept a doubleheader from Chi-

cago Cubs 3-2 and 7-6 in 12 innings; St. Louis Cardinals handed Montreal Expos their first defeat 6-1; San Diego Padres edged Los Angeles Dodgers 2-1, and, in a pair of 11-inning games, Philadelphia Phillies beat Pittsburgh Pirates 5-4 and Atlanta Braves overhauled Cincinnati Reds 4-3.

In games Saturday, Montreal shaded St. Louis 6-5, Houston shut out San Francisco 6-0, Atlanta trounced Cincinnati 11-7, and Los Angeles defeated San Diego 1-0. Rain washed out the Chicago-New York and Pittsburgh-Philadelphia games.

**HOMER PROVIDES LEAD**  
Lee May highlighted the As-

tro's rally with a three-run homer that put Houston ahead 8-7.

Successful home runs in the fifth inning by Cleon Jones and Jim Fregosi carried the Mets to their opening-game triumph, and Jim Beauchamp's pinch single drove in the winning run in the extra-inning nightcap.

The Expos, the only undefeated club in the majors going into their game, were stopped by Scipio Spinks.

The tall right-hander scattered five Montreal hits while his St. Louis batterymate, Ted Simmons, gave him all the runs he needed with a two-run single in the first inning.

The Cards wrapped it up with four more runs in the eighth, Spinks driving in one with a single.

Clay Kirby went the route for the Padres, scattering six hits to end the Dodgers' six-game winning streak. Derrel Thomas gave him the winning run with a tie-breaking bases-loaded sacrifice fly in the eighth inning.

## Darwin's Theory Of Evolution Is Working In Minneapolis

The modern version of Darwin's theory of evolution is happening in Minneapolis. Bobby Darwin has evolved from a pitcher to a hitter.

"You can't make a mistake on him, he's just too strong," said Oakland manager Dick Williams after Darwin burned the Athletics with a two-run homer in Minnesota's 8-4 victory Sunday.

From hitting batters in the minor leagues, the Twins' 29-year-old rookie sensation has gone to hitting pitchers. He's had four home runs in five games this season.

Before his turnaround, Darwin worked on the mound for eight years in the minors. He switched to the outfield in 1970, striking 40 home runs in two seasons of minor league ball in the Los Angeles Dodgers' chain.

He caught the attention of Minnesota scouts and the Twins obtained him on Oct. 23, 1971, in a trade for outfielder Paul Ray Powell.

His latest homer was hit off Oakland southpaw Ken Holtzman.

In other American League games Sunday, Texas Rangers defeated California Angels 5-2; Chicago White Sox nipped Kansas City Royals 3-2; Cleveland Indians downed Baltimore Orioles 2-1 and Milwaukee Brewers trimmed Detroit Tigers 3-0. The New York Yankees' game at Boston was rained out.

Saturday, Boston downed New York 11-7, Chicago swept a double-header from Kansas City, winning 1-0 and 3-2, Cleveland Indians whipped Baltimore 8-2, Detroit defeated Milwaukee 8-2, and Texas blanked California 6-0. Snow postponed Oakland's game at Minnesota.

## What to look for in an economy car. (besides the price)

Now with some economy cars, looking for anything besides the price would be a waste of time. Simply because there's just not much else to look at.

That's what separates our economy car from other economy cars. Corolla is more than a pretty price.

Much more. And it's all standard.

Take a minute and have a look here.

Then go around to a showroom and have a look there.

There's a lot to see.

pleted in April of next year, the structure will have 56  
storeys of office space topped by a panoramic restaurant.

# Ottawa Political Experts Flummoxed On Turncoats

OTTAWA (CP) — Political observers here are flummoxed. But trying to predict the electoral fates of two MPs in the Commons who switched parties after they were elected to Parliament in 1968.

Perry Ryan of Toronto Spadina and Raymond Rock of Montreal Lachine came in as long-time Liberals, bolted to the Conservatives and plan to face the voters under their new banner in the election expected this year.

Both predict their own victories and deny that there is any popular feeling that as "turncoats" they should be turned out.

But professionals in Liberal and Conservative camps admit to be bewildered as to their chances. Liberal conditions seem to be the key factors, and they differ for each man.

There are few hints in Canadian political history to help the odds-making. Four other MPs in recent memory have switched and won the next election. But anonymity has been the reward for others.

Mr. Ryan, a careful-speaking 54-year-old native of Barrie, Ont., set up a new practice in Toronto and beat a Conservative in traditionally Liberal Spadina in the 1962 election that ended the majority government of John Diefenbaker. He won the 1963 contest that began five years of minority government under Lester Pearson.

Two elections later, in 1969, he shunned his lifelong affiliation with the Liberals to sit as an independent on the opposition side of the House.

He complained that Prime Minister Trudeau was reducing Canada's commitment to NATO, ignoring urban problems and setting policy without asking MPs.

He says he was strongly supported in his core-city riding, where about 75 per cent claim

# Businessmen Need Patience Dealing With Chinese Buyers

OTTAWA (CP) — Businessmen need patience negotiating with Chinese buyers, says Canadian's Peking trade counselor, but when a sale is made, the Chinese meticulously honor contracts.

Besides, they pay cash.

R. G. Godson, counselor and consul in Canada's four-month-old Peking commercial office spoke Monday to a development conference sponsored by the trade department and business associations.

China balances its trade by paying for imports with export earnings, he said, and rarely asks for even short-term credit from Western exporters.

Canada was China's sixth most important trading partner, with total trade expected to exceed \$200 million this year.

He predicted Chinese demand for complete industrial plants as they push to catch up with the advanced technology of Western countries.

Imports were now limited to raw materials, machinery and semi-finished goods and, since China was developing its own light-manufacturing and food-

# Stocks Show Uncertain Pattern During Wall Street's Past Week

NEW YORK (AP) — The New York stock market traced an uncertain pattern last week, one day and down the next, and ended up with mild losses.

In the early part of the week, news of the Vietnam escalation dominated investor thinking, analysts reported, and the market responded to reports from Indonesia.

Toward midweek, economic news took sway. The commerce department reported that the gross national product—dollar value of the output of goods and services—rose 11.8 per cent in the United States, but that inflation accounted for more than half this gain. Prices surged ahead 6.2 per cent in the quarter.

Of Friday, the government noted that the rise in living costs as measured by the consumer price index eased somewhat during March.

However, reports of a record level of mutual fund redemptions, far exceeding sales, sent prices scotching downward.

The Dow Jones average of 30 industrials ended the week with a 3.92-point loss at 930.80. The New York Stock Exchange index of some 1,300 common stocks slipped 0.56 to 108.72.

Of the 1,934 issues traded during the week, 669 advanced and 1,065 declined. There were 255 new highs and 245 new lows.

The Associated Press 60-stock average dropped 2.7 to 342.3. Standard and Poor's 500-stock index fell 0.95 to 108.89.

Volume for the week totalled 90,37 million shares, compared with 99,53 million shares the previous week.

Of the 20 most actively traded issues, 12 advanced and eight declined.

Republic Corp. was the volume leader, gaining 2 1/4 to \$39 1/2. American Motors, second active, rose 1/4 to \$20 1/2. Occidental Petroleum, third most active, rose 2 to \$13 1/2.

Other closing prices included Alaska Interstate, up 8 1/2 to \$19 1/2; Universal Oil Products, up 3/4 to \$20 1/2; Fannie Mae, off 1 1/2 to \$22 1/2; Chrysler, up 1 to \$36; and Anaconda, up 1 1/2 to \$20 1/2.

On the American Stock Exchange, the price change index fell 0.23 to 28.30.

# Worst Storm Hits Red Deer

RED DEER (CP)—The central Alberta area around Red Deer returned to near-normal Sunday after what power company officials described as the most devastating snowstorm ever experienced in the district.

Power was restored to all areas Sunday after a storm that began Friday and continued until Saturday morning brought winds of up to 50 miles an hour and power disruptions that lasted up to 22 hours.

FRAUD ALLEGED  
BRANDON (CP) — A former taxi driver, charged with impersonating a U.S. psychologist to gain an appointment to Brandon University's faculty, has a deposition on 14 counts of fraud drawn up against him at a special hearing which ended here Saturday. The depositions will be forwarded to Worcester, Mass., where Joseph Robert Bohn, 38, is being held for an extradition hearing expected later this week.

NOTES RIDING RECORD  
Mr. Rock, a former hardware merchant, says the riding always votes for the party that gets elected to govern.

With high unemployment, "governments have always been defeated in our area. And it will be defeated this time."

Mr. Ryan and other Conservatives concede that Spadina—with its high ethnic population—is a typically Liberal seat. But Mr. Ryan is said to have enough personal appeal to carry it for the Conservatives.

Both men say they have incurred no political costs in their moves. They say their ridings were hostile to the Liberals when they switched and the animosity has risen since.

Both expect to be back in the Commons after the next election—a part of a Conservative government.

# Gap Widens In Supplies

NEW YORK (AP) — A government survey last week indicated that the gap was widening between national requirements for most basic materials and the remaining easily accessible world supplies.

American Metal Market, the daily newspaper of the metal industry, says the report also noted that reliance on foreign supplies was "steadily increasing as quality of basic ores drops in the U.S."

The government's survey of the basic materials needs for the rest of the century said the U.S. deficit accelerated steadily in the last 20 years and could grow to more than \$60 billion annually by the year 2000.

"The unmistakable conclusion is that as the nation's needs for basic materials continue to grow and as per capita consumption of materials in other countries increases at an even faster rate than ours, it becomes increasingly difficult for the U.S. to fill its ever-growing deficit by imports," the report said.

Jerome Klaff, chairman of the materials policy commission, emphasized recently that the conflicts between material availability and environmental quality have brought into greater prominence the need for reducing pollution and reconstituting secondary materials into basic materials.

The report supported this view, noting that reprocessing of materials would become more essential in the U.S. as the lack of basic materials created higher prices and greater dependence on foreign ores.

Major metals prices:  
Copper—52 1/2-53 1/2 cents a pound, delivered; foreign 51.13 cents, nominal, New York.  
Lead—15 1/2-16 cents a pound.  
Zinc—17-18 cents a pound.  
Aluminum—29 cents a pound, unalloyed ingots, delivered.  
Antimony—59 cents a pound, bulk

# Former Penticton Girl Wins Top Acting Award

NEW YORK (AP) — Slicks and Bones and Two Gentlemen of Verona, Broadway shows written by newcomers, swept top honors for an exciting finale to the 26th annual Tony Awards ceremony.

The top drama was Slicks and Bones, written by 31-year-old Vietnam veteran David Rabe. Two Gentlemen, written by John Guare and Mel Shapiro, was named the best musical.

The top acting awards for musical performance presented during Sunday night's ceremony went to Alexis Smith of Follies and Phil Silvers, who arrived just two weeks ago in a revival of A Funny Thing Happened on the Way to the Forum.

The role of Miss Smith, a native of Penticton, in Follies was the highlight of her career in which she has played mostly in second-rate films. But her performance in Follies electrified the critics and the show is one of the most successful now running.

Cliff Gorman of Lenny and

Sada Thompson of Twigs garnered the top drama acting prizes.

Supporting musical awards went to Larry Blyden, also in Forum, and to Linda Hopkins, who appeared in Inner City, which closed three months ago. Miss Hopkins was the only Negro to win an award this year even though there were several blacks nominated in many categories.

In the drama supporting categories the winners were Vincent Gardenia of The Prisoner of Second Avenue and Elizabeth Wilson of Slicks and Bones.

The elaborate presentations were telecast over the ABC network and, as usual, ran over the planned two-hour scheduling, this time by 15 minutes.

Slicks and Bones is the story of a blinded soldier returning home from the war to his family. Two Gentlemen is a light-hearted romp through the Shakespeare comedy. It moves to rock and Latin American

beats and blues type jazz. Guare and Shapiro shared a Tony for their book.

Follies, a musical that opened a year ago but was eligible for consideration now under Tony deadline regulations, won seven silver medallions in the 18 competitive categories, the most for a single production.

By coincidence the ceremonies took place on the 408th anniversary of Shakespeare's birth. His posthumous assist to 1972 creativity was the only overseas tinge amid all the presentations. For the first time in many years all the awards were won by Americans.

Special awards for distinguished accomplishment through long careers were represented to musical star Ethel Merman and composer Richard Rodgers, both of whom participated in quick-tempo reprises of conspicuous triumphs. Harold Prince got a medallion citation on behalf of Fiddler on the Roof, which on June 17 becomes the longest running show in Broadway history.

The Tony awards are named after Antonette Perry, a figure of Second World War theatre.

## SOME ODDITIES IN THE NEWS

MEMPHIS, Tenn. (AP) — The Memphis Better Business Bureau couldn't help the man who complained that a car dealer refused to refund his \$50 down payment after he decided not to buy the car.

"You have not told us all the facts," the bureau chided in its newsletter. "The dealer suggested you take the car for a test ride—and you did. But you were gone three days and put more than 1,500 miles on the car. . . ."

WICHITA, Kan. (AP) — Ten-year-old Lisa Starr and her sister, Deborah, 14, were called to jury duty last week in Sedgwick County district court.

"It was just one of those computer goofs," explained Howard C. Kline, administrative judge.

READING, Mass. (AP) — A policeman parked his patrol car with the keys still in the ignition and joined a hunt through a wooded area for a robbery suspect. The suspect escaped in the cruiser.

## USE IN BREAD

For coffee-time, a light fruit bread uses canned fruit cocktail in a novel way.

## Canada Has Nothing To Gain By Tanker Route-St. Pierre

VANCOUVER (CP) — A British Columbia member of Parliament said Saturday that Canada has nothing to gain and the most to lose if the United States goes ahead with a proposed pipeline-tanker route to bring oil south from Alaska.

Paul St. Pierre (L — Coast Caplano) told the Canadian Owners and Pilots Association there are strong indications the U.S. will proceed with plans for a pipeline across Alaska to Valdez Island, and a tanker route to the Cherry Point refinery in northern Washington State.

"We will get no benefits from the shipments because we are not participating in any sense," Mr. St. Pierre said. "Yet in the case of a catastrophic oil spill, ours is the vulnerable coast which can be grievously damaged."

He said normal tidal patterns would ensure that the B.C. coast suffered more than U.S. shores. He said the danger of a spill is greatest in the narrow waters of the Strait of Juan de Fuca, between Vancouver Island and the Olympic peninsula of Washington.

Mr. St. Pierre said some degree of control could be enforced if the strait constituted an international waterway. But, he said,

## Greenpeace Flag Will Fly Again

VANCOUVER (CP) — The tattered green and yellow banner that flew from the masthead of the Greenpeace and Greenpeace Too was passed to Ben Metcalfe, chairman of the Greenpeace Foundation, in a brief ceremony at Vancouver International Airport Saturday.

Jim Bohlen, one of the founding members of the Don't Make a Wave Committee and leader of the first Greenpeace mission to Amchitka last year, presented the flag to Metcalfe who then caught a plane for New Zealand.

The flag will fly from the halliards of Greenpeace Three

which will sail shortly from Auckland, New Zealand, to protest nuclear tests planned by France in the South Pacific sometime in June.

The vessel is a 38-foot ketch, owned and skippered by David McTaggart, 34, of Vancouver.

The ship will carry a crew of four others—navigator Nigel Ingram, 25, of Devon, a former officer in the Royal Navy, Metcalfe and two others whose names have yet to be announced.

A sailing vessel was chosen for the voyage because it would be less dependent on the shore for fuel, said Mr. Metcalfe. He said the sailing date has yet to be announced because "one lesson we learned at Amchitka was not to announce, too much too soon."

## WORLD BRIEFS

### SMALLPOX KILLS 150

CHANDIGARH (Reuters) — At least 150 persons have died of smallpox in the Indian state of Haryana in the last three months, a health department spokesman said here Sunday. More than 1,000 persons had been infected.

### WORKMEN FIND MAMMOTH

MEXICO CITY (Reuters) — Workmen carrying out excavations in a onetime lake district on the outskirts of this capital city found the bones of a five-ton mammoth which archeologists estimate lived between 8,000 and 10,000 years ago.

### FIND STOLEN HOUSE

TALLAHASSEE, Fla. (Reuters) — Leon County Sheriff Raymond Hamlin says he has found a small cinderblock house reported stolen last week on the other side of town. Charges may be laid against five persons who dismantled the home and started to put it up across town, he said Sunday.

### MANOEUVRES END

MOSCOW (AP) — The Warsaw pact countries completed Sunday six days of naval manoeuvres in the Black Sea, Tass reported. The Soviet news agency said the staff of the joint armed forces, the headquarters and naval forces of Bulgaria and Romania and the Black Sea Fleet of the Soviet Union took part in the exercise.

### HELICOPTER CRASHES

GRAZ (AP) — An Austrian army helicopter engaged in rescue operations in flooded Styria province hit a power line and crashed Sunday, killing all three soldiers aboard. Four persons have died in the floods, caused by heavy rainfall.

### UNEARTH PALACE

DAMASCUS (Reuters) — A palace dating back to the third millennium B.C. has been unearthed by a French expedition at Tel al-Hiriri near the Syrian-Iraqi border, antiquity department sources said here

Sunday. The find also included 25,000 clay tablets with inscriptions.

### COPS TO HEAR GRIPEs

LONDON (Reuters) — A round-the-clock complaints department will be set up as part of a London police reorganization it was announced here Sunday. Allegations of police corruption have increased here in recent years, and the aim of the department is to speed investigations into complaints.

### U.S. GROWTH SLOWS

WASHINGTON (AP) — The U.S. rate of population growth fell below one per cent last year, the second time this has happened since 1940, the census bureau said Sunday. The national growth rate in 1971 was 0.98 per cent compared with 1.09 per cent in 1970. The rate also fell below one per cent in 1968.

### PRIORITY PLANTS

NORWICH, England (CP) — A unique species of mushroom has halted Norfolk council's plans to build a £400,000 sewage plant. The mushroom, agaricus vinosobrunneus, can be found only in woodlands outside Norwich, according to botanists. The suggested site for the sewage plant nearby "would have threatened the species with total extinction," Dr. Martin George, of a local nature conservation body, explained. The council agreed to find a new site.

## Are you beginning to think this way about funerals?

- ☐ I think many people buying a funeral end up paying far more than originally planned, possibly because they are emotionally bewildered at the time.
- ☐ Money spent on elaborate funerals would be better spent among the living.
- ☐ I want my funeral, including cremation or burial, to cost under \$300.
- ☐ I think embalming, for purposes of displaying the body, is an unnecessary indignity.
- ☐ I am repelled by putting a body on display with the face made up to look "natural".
- ☐ I favour a closed coffin, a private cremation or burial, with perhaps a memorial service after, for friends and relatives.
- ☐ I feel strongly enough about these matters that I would like to support an organization dedicated to promoting simpler, less costly, more dignified funeral practices.
- ☐ I would like to receive a simple plan which lets me record my wishes in privacy, so that they may be filed with a non-profit organization I know will carry out my wishes after death. This also saves my next-of-kin from making these difficult decisions under emotional stress.

If you feel this way you are not alone. Over 60,000 people now belong to the Memorial Society of B.C. If you move, your membership can be easily transferred to other societies throughout North America at little or no cost.

### LIFETIME MEMBERSHIPS:

\$5 for individuals \$10 for families

Last year the Society's undertaker held 2,018 services for members, at an average, all-inclusive cost of \$229.83.

Please phone or write for folder today.

Phone: 762-5004 (Kelowna)
